THE FRIEND OF WOMAN. E. Clark's Revolving Looper

DOUBLE THREADED

Hemmer, Feller, Binder & Tucking guage, combined, \$5

THE reputation of this Machine is now fully established as the most reliable Machine in the market for family use, and has been attested too by thousands of the most respectable families in the Union.

This Machine makes the colebrated "Double Lock This Machine makes the celebrated "Double Lock Stitch." the only one made by machinery that meets all the requirements of Family Sewing. Each stitch is tied twice, so that every one is securely fastened and wholly independent of all the other stitches for strength, so that if the seam is cut or every fourth stitch broken, the sewing must hold good while the fabric will wear. The machinery which makes this stitch is a marvel of simplicity, requiring no mechanical skill to manage it, nor does it require adjustment more than the mere change of thread and needles to adopt it to the character of the work to be sewed—coarse or fine as the case may be. It will sew gazze laces, and all varieties and kinds of fabrics between and including heavy beaver cloth, without changing either needles or thread equally well, and return to either variety of work with perfect satisfaction. No other Machine ever offered to the public will do as much.

No other Machine ever offered to the public will do as much.

A perfect Sewing Machine, one making a stitch answering all the requirements of the family, sewing coarse and flue work equally well, was the great desideratation of the home circle, previous to the invention of Edwin Clark's Revolving Loopen. The stitch is beautiful, trong, and elastic, and will not rip in wear or in accidental breaking a thread.

Every Machine is warranted to give satisfaction or the grone retunded.

MONROLTON, Pa., Feb. 27, 1860. Mr. B. F. Snaw Sir: I have used for the last three nouths in my Tailor-Shop, one of "Raymond's tatest improved Sewing Machines," and I do think it the best n use for tailoring purposes, and would not do without for One Hundred Pollars if I could not get another of backing for less super-

CAUTION.

"To be, or not to be - hat is the question! Whether 'tis nobler in the mind to suffer Whether its nobler in the mind to suffer
The slings and arrows of outrageous enposition.
Or by taking up arms against a sea of printing ink,
And opposing, end them."

THE proprietor of the Argus takes occasion in adver
tising his lindery to indulve in an uncalled for thing
about a "sort of a concern," which is hoping "to delude
the public." As I have opened a flindery on my own account, the intercace is that if the public bring their
binding to me, they are in no danger of being defended.
For two years I have worked for Mr. Pansons and he
has taken great pains t satisfy the public I was the best
finder in America," as the columns of the Argus will
testify. Has he been all that time "deluding the public?" If I have been agged in a fraid, he has been the
principal. But I refer to my work during that time as
exidence that there has been no fraud practiced.
Having served a long apprenticeship at the Bindery
busines. I have re-mad business here on my own account, as I know of nothing which prevents me from following a legitimate and bawful calling for my support.—
I shall endeavor by good work and attention to my business to give public satisfaction.
