And opposing, and them."

The projector of the Argus takes occasion in advertising his Bindery to include in an uncalled for filing about a "sort of a concern" which is hoping "to deltale the public." As I have opened a Bindery on my own account, the inference is that if the public bring their binding to me, they are in no danger of being defrauded.

For two ways. count, the inference is that if the public bring their binding to me, they are in no danger of being defrauded. For two years I have worked for Mr. Pansons, and he has been great paints a satisfy the public I was the "best linder in America", as the cohumns of the Argars will testify. Has he been all that time "delading the public?" It have been all that time "delading the public?" It have been all that time "delading the public?" It have been appared in a fraud, he has been the principal. But I refer to my work during that time as evidence that there has been no time practiced.

Having served a long apprenticeship at the Bindery business, I have returned his mess here on my own forcount, as I know or insting which prevents me from following a degritmate and hawful calling for my support.

THE FRIEND OF WOMAN. E. Clark's Revolving Looper

DOUBLE THREADED FAMILY SEWING MACHINE

The Revolving Looper is a late improvement on Ray-mond's Latest Improved.)

Warranted the best in the world for Family Use! Price Within the Reach of Every Family.

PRICE \$35. Hemmer, Feller, Binder & Tacking guage, combined, \$5.

Hemmer, Feller, Binder & Tacking gnage, combined, \$5.

THE reputation of this Machine is now fully established as the most reliable Machine in the market for family use, and has been attested too by thousands of the most respectable families in the Union.

This Machine makes the celebrated "Double Lock Stitch," the only one made by machinery that meets all the requirements of Family Sewing. Each stitch is tied twice, so that every one is securely fastened and wholly independent of all the other stitches for strength, so that if the seam is ent or every fourth stitch broken, the sewing must hold good while the fabrie will wear. The machinery which makes this stitch is a marvel of simplicity, requiring no mechanical skill to manage it, nor does it require adjustment more than the mere change of thread and needles to adopt it to the character of the

much.

A perfect Sewing Machine, one making a stitch answering all the requirements of the family, sewing coarse and fine work equally well, was the great desideration of the home circle, previous to the invention of Edwin Chark's Revoluting Looren. The stitch is beautiful, trong, and elastic, and will not rip in wear or in accidental breaking a thread.

Every Machine is warranted to give satisfaction or the money relanded.
