Towarda, Sept. 21, 1860.

LADD. WEBSTER, & CO.. IMPROVED TIGHT STITCH

Sewing Machines!

PRICES reduced to \$50 and upwards, for Fam lies and Manufacturing establishments. Let Manufacturers, Planters, Farmers, Housekeepers, or any other persons in search of an instrument to execute any kind of kind of Sewing now done by machinery, make sure they secure the best, by examining ours before pur-

chasing.

A few of mady reasons why the SEWING MACHINES of LADD, WEBSTER & CO., are prefered above all ners

1. They are so remarkably simple in their construction. They are so remarkally simple in their construction.
 child can operate them and understand the mechanism
 They are the strongest Sewing Machine made. It is almost impossible to break or get them out of order.
 They are sure in their operation; finishing the work in a uniformly perfect manner.
 They make a tight lock stitch, alike on both sides of the work, which cannot be unraweled.
 They stitch, hem, bind, fell, run and gather, without besting.

6. They sew equally well the lightest and the heaviest

6. They see equally fabrics.
7. They sew over the heaviest seams without changing the tension or breaking the finest thread.
8. They use any No. of Cotton, Thread or Silk directly from the spool. 9. They use a straight needle; curved ones are liable

10. The needle has a perpendicular motion. This is

absolutely necessary for heavy work.

11. They have a wheel feed; none others are in constant contact with the work.

12. They run easily and almost noiseless:

13. They are not liable to oil the dress of the operator.

14. They do not require a screw-driver to set the needle.

15. They do not have to be taken apart to oil or clean.

16. They are capable of doing a greater range of work and in a more perfet manner than any other Sewing Machine; as is proved by the result of our challenge for a trial, which has never been accepted.
