The Collegiate year is divided into three terms of 14
weeks each. The Anniversary exercises will be held at
the close of the Spring term.
No deduction will be made for absence, except in case
of protracted illness of over two weeks.
Instrumental Music will not, as heretofore, be taught in
the Institution, but by special arrangement—a class will
be taught in a hall adjoining the grounds of the Institute,
by the Teacher of Vocal Music.
This arrangement has been adopted for the past term,
and experience has proved it to be eminently superior to
the plan pursued in former years. Special pains will be
taken to secure the greatest progress of those wishing to
take lessons in this branch. Terms will be as heretofore:

CAUTION.

"To be, or not to be— hat is the question! Whether 'tis nobler in the mind to suffer The slings and arrows of outrageous opposition, Or by taking up arms against a sea of printing ink, And opposing, end them."

The proprietor of the Argus takes occasion in advertising his Bindery to indulge in an uncalled for fling about a "sort of a concern," which is hoping "to delude the public." As I have opened a Bindery on my own account, the inference is that if the public bring their binding to me, they are in no danger of being defrauded. For two years I have worked for Mr. Parsons, and he has taken great pains to satisfy the public I was the "best Binder in America," as the columns of the Argus wil testify. Has he been all that time "deluding the public?" If I have been engaged in a fraud, he has been the

principal. But I refer to my work during that time a
evidence that there has been no fraud practiced.
Having served a long apprenticeship at the Bindery
business, I have resumed business here on my own account, as I know of nothing which prevents me from following a legitimate and hawful calling for my support.—
I shall endeavor by good work and attention to my business to give public satisfaction.

LADD, WEBSTER, & CO.. IMPROVED TIGHT STITCH

Sewing Machines!

PRICES reduced to \$50 and upwards, for Families and Manufacturing establishments. Let Manufacturers, Planters, Farmers, Housekeepers, or any other persons in search of an instrument to execute any kind of kind of Serving now done by machinery, make sure they secure the best, by examining ours before pur-

chasing.

A few of mady reasons why the SEWING MACHINES of LADD, WEBSTER & CO., are prefered above all

thers
1. They are so remarkably simple in their construction.
child can operate them and understand the mechanism
2. They are the strongest Sewing Machine made. It is
most impossible to break or get them out of order.
3. They are sure in their operation; finishing the
rork in a uniformly perfect manner.
4. They make a tight tock stitch, alike on both sides of
ne work, which cannot be unraveled.
5. They stitch, hem, bind, fell, run and gather, withstiffer.

. They sew equally well the lightest and the heaviest

7. They sew over the heaviest seams without changing e tension or breaking the finest thread.

8. They use any No. of Cotton, Thread or Silk directly

9. They use a straight needle; curved ones are liable

o break.

10. The needle has a perpendicular motion. This is besolutely necessary for heavy work.

11. They have a wheel feed; none others are in constant sountact with the work.

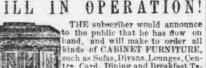

12. They run easily and almost noiseless.

13. They are not liable to oil the dress of the operator.

14. They do not require a screw-driver to set the needle.

15. They are canable of doing a greater range of work.

16. They are capable of doing a greater range of work and in a moro perfet manner than any other Sewing Machine; as is proved by the result of our challenge for a trial, which has never been accepted. B. F. SHAW.

Price Within the Reach of Every Family duce. He asks particular attention

THE reputation of this Machine is now fully established as the most reliable Machine in the market for family use, and has been attested too by thousands of the most respectable families in the Union.

This Machine makes the celebrated "Double Lock Stitch," the only one made by machinery that meets all the requirements of Family Sewing. Each stitch is tied twice, so that every one is securely fastened and wholly independent of all the other stitches for strength, so that if the seam is cut or every fourth stitch broken, the sewing must hold good while the fabric will wear. The machinery which makes this stitch is a marvel of simplicity, requiring no mechanical skill to manage it, nor does it require adjustment more than the mere change of thread and needles to adopt it to the character of the work to be sewed—coarse or fine as the case may be. It will sew gauze laces, and all varieties and kinds of fabrics between and including heavy beaver cloth, without changing either needles or thread equally well, and return to either variety of work with perfect satisfaction. No other Machine ever offered to the public will do as other Machine ever offered to the public will do as
