# LOCAL AND GENERAL.

BAPTISM .- Four more persons received the rite of baptism, by immersion, on Sunday last, at the hands of Rev. I. Childs of the Baptist Church.

THE REVIVAL .- Well attended and interesting meetings still continue to be held at the Baptist and Methodist churches. A series of evening prayer meetings are also being held at the Presbyterian church.

INDISPENSABLE .- If you want healthy, light bread, biscuit and pastry of all kinds, use only D. B. De Land & Co's Chemical Saleratus. It is truly the "housewife's favorite," and is indispensable in producing the

CHENANGO CANAL.—A meeting was held at the Court House on Saturday evening by citizens inter ested in the completion of this important work. We have raceived no report of the proceedings, but learn that proceedings were had tending to show to the lower house of the N. Y. Legislature, ia which the bill is now who are the proceeding of the speedy completion of the pending, the seccessity of the speedy completion of the work.

AN ALARMING THEORY .- The sudden appearance of oil in such immense quantities in those regions in which it could not have existed but a short time, has given rise to numerous theories respecting its origin. Among the last and most feasible of these is the one advanced by the Pittsburg Gazette, in its issue of the 20th ult. It says :

"ult. It says: The internal fires of the earth, known to exist, are making their way to the surface where, in accordance with the prophecy..."the elements are to melt with fer-with the prophecy..."the elements are to melt with fer-rent heat. The caloric from these subternanean fires has just reached the coal strata, and oil, which forms the ig-meous portion of that carbonic compound, is driven from it and forced by superimembent pressure to occupy fis-ures, and the softer formations of the earth below, unit are, and the softer formations of the earth below, units it is and forced by superimediate of the earth below. relieved by apertures from the surface. Those living in the coal regions are nearest Hades, and, of course, find es, and the si the oil first.

FAMIONABLE COLORS .- It may be interest-

ing to our lady readers to know that the ground work of all the popular styles in dress goods this Spring, is gray, drab, ashes of roses, and steel color in all the different shades of this large family of the mode. Mixed black and white in an almost imperceptible chene, produces the same effect, and is equally in vogue. This ground work s illuminee with designs in one or two colors, but rarely a chintz excepting in very rich silks or jaconet muslins the new shades so much in vogue last winter, mauve, brender, fuschia, and Marguerite, will be worn, but not o much as the Quaker colors. No flounced robes-none as much as the quarker constructed of Dutch tiles, or woman look as if she were constructed of Dutch tiles, or represented a great patch of sunflowers, are to be found among the new dress goods. A very pretty check wash-ing silk will be much worn, designed tor three and five flounces; also a popular style of small-figured black wilks, esceedingly cheap. Standing Stone-Guy Brown.
