

Agricultural Department.

Aphides, or Plant-Lice.—The New Grain Insects and Army Worm.

The grass and cereal crops have suffered the present season to an unusual extent by insect depredators. In addition to the immense numbers of the Army worm that have preyed upon the growing grass and grain, a species of Aphid has done great injury to the oats, wheat, and corn crops. Almost every family of plants are infested with certain species of plant-lice peculiar to them. These differ in form, color, clothing, &c., and in the length of the honey-tubes, or bills, through which they pump up, or suck the juices of the plant, upon which they feed. For instance: The *Aphis Rosae*, or Rose louse, the *Aphis Brassicae*, or Cabbage louse, the *Aphis Salicis*, the louse of the willow groves, &c. But I have never before heard of serious injury done to the grain crops by this insect. In Harris's Treatise on Insects, the author alludes to a certain insect similar to the *Thrips Cereale* which sometimes infests wheat, in Europe specimens of which were furnished to him by Mrs. N. G. S. Gage, formerly of Concord, N. H. But from its description and habits I think it is nothing more nor less than the wheat midge, which in later years has proved so destructive to the wheat crops in this and other States. It having first appeared, about the time Mrs. Gage wrote, in that section of country, and has since gradually extended west, until it has reached Ohio, Indiana and other western States.

I have been kindly furnished by two of the neighboring farmers with specimens of the Aphid which have appeared in such great numbers in the grain fields the present season, and I cannot discover that they differ materially from the plant lice found on many species of the coarser vegetation. The idea has been advanced by some of the neighboring farmers that this insect has some connection in its origin with the Army worm, or the Army worm with that, which has appeared simultaneously with it. Such an opinion would, at once be ridiculed by any entomologist. The worm, like all similar insects, passes through certain well known transformations. In its period of infancy it is technically called a *larva*, a word signifying a mask, because therein its future form is more or less masked or concealed. This name is not only applied to grubs, caterpillars, and maggots, and other insects that undergo a complete transformation, but also young and wingless grasshoppers and bugs, and indeed all young insects before the wings begin to appear. The next stage or the second period is called the *pupa* state from a slight resemblance that some of the latter present to an infant trussed in bandages, as was the fashion among the Romans. The pupa from the caterpillars, however, are more commonly called chrysalids, because some of them, as the name implies, are gilt or adorned with golden spots. At the end of the second period, they again shed their skins and come forth fully grown, and in this stage are in their perfect or adult state, and soon die, after laying their eggs. The history of the *Aphides* is equally well understood, it having been an object of profound interest and study for the early philosophers, and is one of the most remarkable and anomalous of the insect tribes, not even excepting that of the honey bee.

The genus to which plant-lice belong is called *Aphis* from a Greek word which signifies to exhaust, as they live upon the circulating juices or life-blood of the plant. In the autumn, or near the close of the season, unlike all former generations, the plant-lice brings forth a brood consisting of male and female, both being provided with wings. These pair, and the females lay their eggs, and then they die, the race being extinct for the season. The eggs, thus laid, are hatched in due time in the spring, and the young lice immediately begin to feed by sucking the juices from the tender plants. The numerous punctures upon the underside of the leaves cause them to curl up and present the diseased appearance observed on the rose, and peach and leaves of other plants.

What is so anomalous and remarkable now, is that the brood, without a single exception, consists wholly of females, which are wingless, but are in a condition immediately to continue their kind. The young not being hatched from eggs, but are produced alive, each female may be the mother of fifteen or twenty young lice in the course of a single day. The plant-lice of this second generation are also wingless females, which grow up and have their young in due time; and thus brood after brood is produced, even to the tenth generation or more without the appearance or intervention, throughout the whole season, of a single male. This extraordinary kind of propagation ends in autumn with the birth of the winged males and females, which lay their eggs, as stated above, for the next annual generations. Mr. Curtis, an English writer on the subject, estimates the offspring from a single egg, in the course of seven generations, to amount to the enormous number of seven hundred and twenty millions. At this rapid rate of increase some would suppose that every kind of vegetation would be soon entirely destroyed. But it is proper to remark that these, like all insects injurious to vegetation, have their parasitic or other enemies that keep their numbers in check. Remarkable among those that depredate upon plant-lice is the Aphid lion, one of the most voracious of all the insect tribes. There is another attendant upon the plant louse, and those ignorant in such matters have thought that they produced the lice. I refer to the common small ant. On young apple and other trees, infested with lice ants may always be seen ascending and descending the trunks and branches. Their mission is to milk the lice. After feeding continually upon the juices of plants, the lice secrete and discharge a kind of sweet fluid, called honey dew, upon which the ants feed. By certain manipulations performed by the ants, the lice give out this sweet fluid which the ants speedily devour. Plant lice have hence been styled the *kine* or cattle of the ants. Other insects also feed upon this fluid collected by the Aphides.

The cause of the great numbers of the particular species of the Aphid that have injured the grain crop the present season, like the increase in the numbers of the Army worm may be attributed to a combination of causes, connected with the present, and previous season, together with certain favorable conditions of the last winter for the preservation of the eggs. There are many other interesting facts connected with the history of these insects that might be detailed. But I have already extended my notes farther than I intended at a time when other matters more generally claim the attention of the general reader.

Sag Harbor, Aug. 7th, 1861. R. F. B.

Miscellaneous.

NOW READY!

BARTLETT'S NEW IRON WORKS
TOWANDA, PENNA.

The Subscriber begs leave to call the attention of the public to the fact that he has enlarged his motive power and purchased and set up additional machinery and employed a larger number of workmen than formerly, so that he is now prepared to execute orders for Castings or Machinery with promptitude. He has at his works all the PATENTERS in use by the late firm of Wm. H. Phillips & Son of Elmira N. Y., and has also added these, patterns of various kinds. MILL IRONS furnished for Grist Mills, Gang, Gate, Circular and Muley Saw Mills, besides
STEAM ENGINES
of different sizes and styles and in fact almost any kind of Castings or Machinery in common use.
Steam Fittings such as Steam Pipes, Elbows, Return Bends, Reducers, Couplings, Globe-Valves, Check Valves, Grange Couplings, Oil Cups, Whistles, &c. always on hand and made to order.
He is also prepared to furnish STEAM BOILERS of any size or kind wanted.
Small Castings made in Brass or Composition. Cooking and Heating Stoves of different sizes manufactured and for sale at the above works. Furniture for Cooking Stoves and Stoves of all kinds.
Persons who want GEARING of any kind are informed that the subscriber has more patterns for Gearing than any other concern in this part of the country. They would be quite ready among his Patrons Gearing that would answer their wants and thus save delay and expense in getting up work.
He makes also a large variety of Pullies, Balance Wheels and Cranks, Water Wheels, also Saw Goggles, Thimble Skins and Pipe Boxes, Iron Fives, Calendars, Pumps, &c.
His equipment of machinery consists of as good tools as are made, and selected with the design of being able to do any job which might be offered, whether large or small. In short his effort has been to get up in all respects a first class establishment.
Terms Reasonable. Orders solicited. Cash paid for Old Pewter and Britannia.
Works situated on Main Street near Barclay R. R. Canal Basin. O. D. BARTLETT, Proprietor.
Towanda, April 11, 1861.

BOOK BINDERY.
THE subscriber having withdrawn from the Argus building would respectfully inform the public that he has removed his office and printing establishment to the Room of the Wad House, formerly occupied by the Post Office, where he is now prepared to bind all kinds of Books in the most approved and workmanlike manner. Having shown my proficiency with no second person I flatter myself that my prices will meet the satisfaction of the public.
Thankful for the confidence reposed in me and the public appreciation of my work, for the last two years, I shall endeavor in the future to merit the continuance of public support.
Particular attention given to re-binding Books. All work will be warranted. Terms, Cash.
Also, a large assortment of STATIONERY of the best quality, at the lowest prices. Justices' and Constables' BLANKS, of all kinds.
PICTURE FRAMES, round, square and oval; and pictures framed to order, cheaper than ever known here.
JOHANN F. BENDER, Bookbinder and Artist.
Towanda, Jan. 11, 1860.

LINCOLN TO BE ELECTED.
YET all these seem only to increase the business and prosperity of the Old Foundry and
MACHINE SHOP,
(South side of Pine st., one door East of H. S. Mercur's Store.)
The undersigned would call the attention of all concerned to the fact, that he is prepared to do, and will execute all work entrusted to him with dispatch, and in the most workman-like manner.
FITTING UP MILL IRONS, REPAIRING STEAM ENGINES, from the simplest to the most complicated, in any of their parts, and WARRANTED to give satisfaction.
Flows always on hand of the most approved patterns, wooded in the most substantial manner.
Having recently added considerably to his facilities for doing work, and employing experienced workmen in every department, he is confident that he can satisfy all who favor him with their patronage.
JOHN CARMAN.
Towanda, Oct. 15, 1860.

LATEST ARRIVAL
OF
SPRING GOODS.
William A. Rockwell
would invite attention to his new stock of Goods, which have been selected with great care to suit the wants of his customers.
Having found it desirable to adopt the
Ready-Pay System,
he offers his Goods at correspondingly LOW PRICES.
Persons examining his present
FASHIONABLE & DESIRABLE STOCK,
which was purchased at
PANIC PRICES,
can not fail of being satisfied both with articles offered and prices asked. His stock consists of
Dry Goods,
GROCERIES,
Boots & Shoes, Hats & Caps,
WALL AND CURTAIN PAPERS,
HARDWARE, GLASS & SASH,
Paints, Oils, and Nails,
BIRD CAGES & SEEDS,
CROCKERY,
GLASS & WOODEN-WARE.
PLASTER,
constantly on hand and for sale at No. 1, Patton's Block, April 18, 1861.

Coal, Lime, Cement, Fire Brick, Drain Tiles, &c.
THERE is a Lime Kiln at the Barclay Company's Basin, in Towanda, where is kept constantly for sale, fresh burnt *White Lime*, made from the best quality of New York lime stone at 25 cents per bushel, or \$1 per barrel, headed up in barrels, and 12 cents per bushel for slacked lime. Lime shipped on boats at Towanda without additional charge. Also Syracuse *Water Lime* at \$1 15 per barrel, and *Fire Brick* at 6 cents each. *Drain Tiles* 2.3 and 4 inch sizes at 2.3 and 6 cents per foot, a very nice article for drain laid or about dwellings. Merchants supplied with Beardsley's *Asps* by the dozen. *Jack Screws*, for moving buildings, to let at 25 cents per foot each.
Barclay Coal at \$2 25 per ton for Lump Coal and \$2 00 per ton for Small Coal. Coal delivered in Towanda at 25 cents per load.
All the above for sale at the office of the Barclay R. R. & Coal Company, Towanda.
J. MACFARLAIN, Gen. Superintendent.
Towanda, Feb. 22, 1861.

CAUTION.
"To be, or not to be—hat is the question! Whether 'tis nobler in the mind to suffer The slings and arrows of outrageous opposition, Or by taking up arms against a sea of printing ink, And opposing, end them."
THE proprietor of the Argus takes occasion in advertising his Bindery to indulge in an unusual for thing about a "sort of concern," which is hoping "to delude the public." As I have opened a Bindery on my own account, the inference is that if the public bring their binding me, they are to no danger of being defrauded. For two years I have worked for Mr. Parsons, and he has taken great pains to satisfy the public that he is the "best Binder in America," as the columns of the Argus will testify. Has he been that time "deluding the public?" If I have been engaged in a fraud, he has been the principal. But I refer to my work during that time as evidence that there has been no fraud practiced. I have served long apprenticeship at the Bindery business. I have resumed business here on my own account, as I know of nothing which prevents me from following a legitimate and lawful calling for my support. I have no other business, and I have no other offer to give public satisfaction.
March 15, JOHANN F. BENDER, Binder.

Miscellaneous.

NEW ATTRACTIONS!

At Geo. H. Wood's Gallery
TOWANDA, PA.
You can procure, at low prices,
PHOTOGRAPHS,
Of all sizes, up to life size, either plain or retouched, colored in oil or pastille.
Also MELANOTYPES and AMBROTYPES, and almost all other kinds of types. Pictures in good cases for 25 cents, and other sizes and qualities in proportion. Melanotypes made in all kinds of weather, (except for children.) All work warranted. July 25, 1861.

THIS IS THE ESTABLISHMENT
where you can find a very fine assortment of WATCHES and JEWELRY of all descriptions, also a good stock of CLOCKS, prices ranging from 10 shillings up, and warranted to give good satisfaction or no sale. Also agent for the sale of D. B. LENT'S celebrated Barometers, which every farmer should always have. Prices from \$5 to \$20, according to finish. REPAIRING done as usual in neat and workmanlike manner and warranted.
W. M. A. CHAMBERLAIN.

BUY YOUR GARDEN SEEDS AT FOX'S.
I have the largest stock and best variety of Garden Seeds ever offered for sale in this town. It is a well known fact that a large proportion of the Garden Seeds sold throughout the country, are old, inferior, and often worthless. In view of this fact I have taken great pains to procure
Fresh and Reliable Seeds,
in fact the best to be found in market, in hopes to supply a want long felt in this community, (and also to increase my own sales in that line.) Will you examine my Seeds before purchasing elsewhere?
REMEMBER THAT GOOD SEEDS COST NO MORE THAN POOR ONES.
WITH GOOD SEEDS YOU CAN HAVE GOOD VEGETABLES.
WITH POOR SEEDS NONE.
Towanda, March 21, 1861. E. T. FOX.

A NEW FIRM
AT THE
OLD BAKERY!
OF H. A. BERBANK.
B. F. & H. SHAW,
HAVING PURCHASED THIS WELL known establishment, they will endeavor, by strict attention to business, to sustain the excellent reputation which this Bakery and Eating Saloon has attained under the supervision of the late proprietor. We shall continue to manufacture
CRACKERS,
of every description, such as oyster, milk, Boston, soda, butter, water, pie-crust, Graham, sugar, wine and common crackers. Also, Buns, Butter Rolls, Wheat, Indian and Graham.
BREAD & CAKE,
of all kinds, constantly on hand and made to order. The attention of the citizens of this place and vicinity, is called to the above, and they are assured that they can always be supplied with any of these articles.
Wedding and Social Parties,
will be furnished with every description and style of Fruit, Pound, and fancy CAKES. Tavern keepers and Grocers will be supplied on terms as advantageous as at their respective establishments in the State. In connection with the above he has
EATING SALOON,
where everything in the line will be served out to those who favor him with a call.
Thankful for past favors he respectfully solicits a continuance of the same.
B. F. & H. SHAW.
Towanda, June 27, 1861.

IMPORTANT NOTICE.
To Farmers and others Interested!
FRUIT TREES—30,000 Choice Fruit Trees for sale, including all the best variety of the Apple, the Pear, Peach, Plum, Cherry and Apricot, also a fine collection of the best Exotic trees, such as Norway Spruce, Fir, Arbor Vitae, Austrian Pine, Scotch Fir and Black Spruce, including all sizes, from 2 to 6 feet, suited to ornamental lawns and door yards, also Deciduous trees, such as Elm, Linden, Norway Spruce, Spruce, Prunella and many others not named. 5000 of our best Native hardy Grape Vines, for sale the coming spring, such as Delaware, Diana, Concord, Delaware, a fine collection of Hybrid, Catawba and Isabella. Also a fine collection of the best Exotic trees, such as Norway Spruce, Fir, Arbor Vitae, Austrian Pine, Scotch Fir and Black Spruce, including all sizes, from 2 to 6 feet, suited to ornamental lawns and door yards, also Deciduous trees, such as Elm, Linden, Norway Spruce, Spruce, Prunella and many others not named. 1000 Lawton Blackberry plants, these fruited in my garden last summer and proved equal to the recommended. A fine collection of Hybrid, Catawba and Isabella. Also a fine collection of the best Exotic trees, such as Norway Spruce, Fir, Arbor Vitae, Austrian Pine, Scotch Fir and Black Spruce, including all sizes, from 2 to 6 feet, suited to ornamental lawns and door yards, also Deciduous trees, such as Elm, Linden, Norway Spruce, Spruce, Prunella and many others not named. 1000 Lawton Blackberry plants, these fruited in my garden last summer and proved equal to the recommended.
