PROCEEDINGS OF THE BRADFORD COUN TY TEACHERS' ASSOCIATION .- The Association met, pur suant to adjournment, at Springfield Centre, Friday af ternoon, August 30th, in the Baptist Church. The meet ing was opened with music, by a choir, in attendance .-A report from the business Committee, embracing ques tions to be discussed, and a programme of exercises, was then accepted, and the Committee discharged. It was moved that the fourth resolution be adopted. The same reads as follows :

Resolved, That in district schools, generally, proper Remarks in favor of the affirmative were made by Messrs Coburn, Hurst, Spear and Scott; the negative, by Messrs. Doty, Gates and Harkness.

It was argued by those favoring the resolution, that overning is the part of a teacher's office the most liable to be neglected, from the fact that it is the most difficult to be filled; that the prevailing complaint of directors and citizens respecting our schools, is, that the insuretors do not maintain proper discipline. In reply, it was
said that to neglect means to wilfully slight, but teachers, as a class, are too honorable to intentionally fail to
perform their responsible duties; that they are no more
deserving censure for faulty school order, than the direcdeserving censure for faulty school order, tha and citizens respecting our schools, is, that the instruc in the border towns of York State—at Owego, tors and parents. Debate was here arrested by an order

Davies and Durand, the negative Among the many arguments advanced by the first speak eruit an entire company, they will undoubted. ers were these: That if the Legislature has the authoriity to provide means for educating, by taxing the property of individuals it possesses the right to compel those paying tax, who have children, to use the privileges pro vided; that the community and the child have rights, as well as the parent, consequently, since ignorance is so fruitful a source of vice, the public, in exercising one of its privileges, has the moral power to protect itself by obliging parents to properly instruct their offspring; and one of the main rights of every youth, is that to procure

The question was then laid on the table. Miss Berry next read a selected article, entitled " Self Reliance," and Miss Sweeny an essay. In the latter was described the folly of the extremely erroneous, but prevaentidea, that the aim of education is to fit the possessor to exist in a higher than the working sphere. Session

Votes having been taken, the first division was lost and the second carried. The question regarding the enactment of a law by the Legislature, was next vot ed upon and was lost. A motion to the effect that the audience be allowed to express its opinion by voting, upon this and the Geography question, was carried. The result coincided with that obtained in the Association. THE SUBSCRIBER IS SOLE AGENT in the county of Bradford and the neighboring coun-ties in Pennsylvania and New York, for

too well and popularly known to need any description from me, and I will only say that they continue to describe the reputation they have enjoyed for ten years, of being the "best Endless Chain Horse Power in use."

This a new Machine, and has not before been introduced into this region. It has no endless, chain straw carrier, but separates all kinds of grain thoroughly from the straw, by a combination of Pitts' Endless Canvass Celled Apron, a new Improved Revolving Picker, and the well known Vibrating Riddle. It is a simple, durable and efficient Machine, will thresh rapidly and clean thoroughly, without wasting, all kinds of grain. It will not choke, run easily and steadily, without jumping, and is warranted to be superior to the common Rake Cleaner now in use. It remains only to be seen and tested, to be pronounced by every experienced hand at threshing, to be an admirably contrived and constructed Thresher and Cleaner.
