19. One day last week-we did not learn the day-somebody's horse ran away-whose, we do not he us where he ran from, and where he stopped we did not inderstand. It is enough, however, that a horse did run away, and if anybody was injured they have our warmest sympathies.

An exchange paper in speaking of a ubscriber who had taken the paper for a number of years and then refused to pay for it says : " He would steal a secret passage to heaven in a secret corner of a streak of ightning, and smuggle gold from the streets of the New Jerusalem to buy stumps of half-penny cigars." In our opinion, that man is no worse than the one who passed a counterfeit two dollar bill on us, last week.

DEF GET THE BEST .- As a general thing the best article is the chapest in the end, and especially is this the case with D. B. De Land & Co's Chemical Sal eratus, an article which every one who has tried it will say is just the thing for the purpose it was made for .--It is manufactured and for sale, at wholesale, by the proprietors, at Fairport, Monroe Co., New York and or sale by most wholesale and retail dealers everywhere.

Another accident occurred on Monday last, to a boy who was riding down hill. A young son of Mr. J. H. NEVINS, while riding down the hill opposite the Ward House, run into the Park fence and broke his legin two places. Dr. Mason was immediately called, who set the fractured limb. This is the second accident of the kind that has happened in this borough during the present winter, and should serve as a warning to parents who allow their children to engage in this amusement.

There never was a time, perhaps, in the history of our country, when the success and prosperity of the people of the Northern States depended to so great an extent upon the producers and manufacturers, as at the present time. Almost everything is high and money scarce, hence it becomes an absolute necessity that the producers of the country should put forth every extion to provide an adequate supply for the consumers. Cotton goods have materially advanced and owing to the agitated state of the country it is impossible to divine when they will be cheaper. In the meantime the demand must be supplied, and the purchaser is compelled to pay the exhorbitant prices demanded by speculators and retailers, or a substitute be produced which can be wcured at a nominal price, and have the effect to bring wn the price of cotton. Wool, in consequence, is and continue to be in great demand, and we trust this lead the farmers of Bradford more into sheep hus

During the past season the demand for army goods has ept the mills, all through the country running to their powers, and some to answer contracts, night and y. The prices of the grades of wool thus used have aded nearly one hundred per cent. since July last .then the market shall be supplied with these goods, e manufacturers will necessarily turn their attention to er qualities. This will give all the inducement to grow ol that can be had, and our farmers that have sheep can procure them, will find them profitable for their ece as well as their carcases.

According to the census of 1850, there were 60,403 sheet orted in Bradford county, and no doubt that number s largely increased during the past eleven years. We also observe by the census of the same year, that ,100 pounds of flax was produced. This amount might e easily doubled with great profit to the grower. Let our farmers take these matters into consideration and also remember our hint on maple sugar making. which appeared in this column two weeks ago.

PROF. WHITNEY AT THE COURT HOUSE. This gentleman, who has returned from a professional in the Western States, and who has lectured to the stastion of our citizens on former occasions, has con nted to give one of his fascioating entertainments at Court House, this (Wednesday evening, 12th inst.)cannot do better in urging all classes, the grave and , to be present at this, perhaps last opportunity of ng re-produced the greatest orators within the Britand American Senates, interspersed with thrilling os and mirth-provoking wit and humor, than by ting the following letter from the Pittsburg Gazetie, ten by JAMES REESE, Esq., of Philadelphia, who in at city is esteemed the accutist and most learned critic the day. He has for many years been the dramatic itic for the principal Philadelphia journals :-

in her children. O Lord ! cause these loving friends to rejoice, as thou once didst send joy unto thy creatures whom thou hadst formed, in the garden of Eden, of old. Blessed art thou, O Lord ! who causest the bridegroom

and bride to rejoice. Blessed art thou, O Lord ! our God, King of the Uni-Blessed art thou, O Lord ! our God, King of the Uni-verse, who hast created joy and gladness, bridegroom and bride, delight and song, pleasure and hilarity, love and brotherhood, peace and friendship, speedily, O Lord, our God ! let there be heard in the cities of Judah and the streets of Jerusalem, the voice of joy and the voice of gladness, the voice of the bridegroom, and the voice of the bride, the voice of the merriment of the bridegrooms at their nuptial feasts, and of youth from their musical entainments.

Blessed art thou, O Lord ! who causest the bridegroom to rejoice with the bride A wine-glass is then placed upon the floor at the feet

of the bride-groom, who breaks it by placing his foot upon it and the person who performed the ceremony, the bridegroom and bride then drink of the wine. They then wish joy and happiness to the pair, and for the favor of the Lord of Promise.

This concludes the ceremony, and the nuptials are complete. Upon this occasion, after congratulating the happy pair, the guests were invited to the nuptial feast-of which it only becomes us to judge, from the enjoyment of all present.

teers and was sent to St. Louis, Mo., then to Cape Girarity beyond the grave.

West Burlington, Feb. 10, 1862.

January 3d inst., at his residence, in Herrick, Bradford county, Pennsylvania, Mr. ISAAC CAMP, aged 79 years, eleven months, and thirteen days.

The deceased was one of the seven children of Job and Dr. Anna Camp, that emigrated with them from New Milford, Connecticut, to Wyalusing, Pennsylvania, in the Spring of 1792. The aggregate ages of these seven children and of Israel, their brother, born after their emigra tion, amount now to over six hundred and twenty years. His death is the first and only one of this family of chill dren since their settlement here. The children, grand children, and great grand-children of the deceased, yet surviving, amount to seventy-five. There are yet living some three hundred and fifty-four of the descendants of Job and Anna Camp. Isaac Camp was one of the first settlers in what is now Herrick township. The honor of being the original inventor of the mould-board of the cast iron plough, is claimed for him. Wnen Mr. Wood of Cavuga county, N. Y. was laboring to perfect the invention of the cast iron plough, and failed to suit nimself with the right shape of a mould-board, Mr. Camp gave him an idea of the form that suited him. Mr. Wood never claimed the invention of the mould-board, and never took a patent for it; but only for the point and land-side. He expected Mr. Camp would take a patent for that, which, however, he never did, as he never applied for it. About twenty-eight years ago the deceased became a subject of the renewing grace of God, and his subsequent life evinced the greatness and reality of the change on his moral character and prospects. His last days were preeminently his best days. As the infirmities of old age clustered around him, and gave him premonitions of his approaching dissolution, he seemed to be repining for eaven ; and when the summons came, we trust, his freed spirit, sanctified by grace divine, was prepared for an abundant entrance into the everlasting kingdom of our Lord and Savior, Jesus Christ.
