CAUTION

"To be, or not to be— hat is the question! Whether 'tis nobler in the mind to suffer The slings and arrows of outrageous opposition, Or by taking up arms against a sea of printing ink, And opposing, end them."

THE proprietor of the Argus takes occasion in adver tising his Bindery to indulge in an uncalled for fling about a "sort of a concern," which is hoping "to delude the public." As I have opened a Bindery on my own ac-count, the inference is that if the public bring their binding to me, they are in no danger of being defrauded. For two years I have worked for Mr. Parsons, and he has taken great pains t satisfy the public I was the "best Binder in America," as the columns of the Argus wil testify. Has he been all that time "defauling the public I was the "best Binder in America" and the public I was the "best Binder in America" and the public I was the public I was the "best Binder in America" and the public I was the public I wa If I have been engaged in a fraud, he has been th lie?" If I have been engaged in a fraud, he has been the principal. But I refer to my work during that time a evidence that there has been no fraud practiced.

Having served a long apprenticeship at the Bindery business. I have resumed business here on my own account, as I know of nothing which prevents me from following a legitimate and bawful calling for my support.—I shall endeavor by good work and attention to my business to give public satisfaction.
