But the world has been

Satsaparita has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregionaly deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the vis-tue of Sarsaparilla, or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsap

bottles, pretending to give a quart of Extract of Sarsa-parilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sansaparilla, but often no curalive properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which food the market, until the name itself is justly despised, flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upoh it. And we think we have ground for believing it has virtues which are ir-resistable by the ordinary run of the diseases it is intend-ed to crue. In order to secure their complete eradica-tion from the system, the remedy should be judiciously taken according to directions on the bottle. taken according to directions on the bottle. Aver's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not de more than assure the people its quality is kept up to the beat it ever has been, and that it may be relied on to do for their relief all it has ever been tound to do.

10 SINGULAR - We are informed upon the

most reliable authority, that a little child, not quite eighteen months old, belonging to Mr. HENRY HUDSON. of Sheshequin, on Saturday night last, had a streeked snake pass its bowels, which, from all appearance was originaly from ten to twelve inches in length. The snake was nearly all digested, only about three inches of the head 425° east 664 10 perches to the place of beginning ; coa and neck remaining sound, with six or eight inches of the back bone and ribs attached. This is a most singular circumstance, but for the truth of it there is no possible doubt

BER. ACCIDENT .- Quite a singular accident occurred at this place en Sunday evening last. A Mr. BOSWORTH brought a load of volunteers from LeRaysville with a young and valuable team. While taking them from the stable one of them became entangled in the bar. ness and fell to the ground so injuring him that he died in a few minutes. A subscription paper was immediate. ly circulated among the volunteers, who, we understand, soon raised enough to purchase another horse.

13 Inasmuch as by the law passed last winter, the teachers of the several districts are required to attend District Drills, one day in every two weeks, I have decided not to hold any County Institute this fall I sincerely regret being obliged to adopt this course and did not decide to do so, until I had consulted the State Superintendent upon this subject, the labors of the Institute and the examinations which follow immediately are more than I can, in my present state of health, endure. In order that I may have more time to devote to that labor. I shall commence the examinations for this fall some three or four weeks earlier than usual. It is hoped that teachers throughout the county will all teel it to be their duty to be present at the inspection in their respective towns, and thereby avoid the necessity of pri-Tate examinations. C. R. COBURN.

COMPARISONS - It is useless to deny that the masses of the people have a deep-seated and settled confidence in " Sursaparittia," as an alterative remedy. Notwithstanding this confidence has of late years been abused by many preparations claiming to possess its virtues but really with none at all, still the people believe in its intrinsic value as a remedy, because they have known of its cures. The rage for large bottles at low prices, has called into market many compounds of Sarsaparilla which contain scarcely any of it.or even any medical virtues whatever. Yet everybody knows that Sarsaparilla is the great staple antidote for Scrofula Eruptions and cutaneous diseases, and the purification of the blood, when they can get the real article, or an actual extract of it. Such we are now able to inform them they can obtain. Dr. J. C. Ayer & Co., the celebrated chemists of the East, whose reputation assures us they do well whatever they undertake, are selling a Compound Extract of Sarsaparil's, which, although the bot tles do not contain quarts, for a dollar, do contain more of actual curative power than whole gallons of the stuffs which have been in use. It is asserted that one bottle of Ayer's Sarsaparilla contains more than double the amount of medicinal virtue, which is afforded by any other. The fact is not only apparent to the taste, but its effects and cures afford incontestible proof that it is true Such a remedy has been long sought for, and is every where needed by all classes of our community.
