OUR TERMS.

Bradford Reporter.

The great increase in the price of paper, which we have before noticed, has caused newsraise their subscription to meet the emergency. Paper has within the last few weeks gone up from 10 to 22 cents per pound. Should it remain permanent at this latter price, we cannot furnish the REPORTER at one dollar a year, without a loss upon every copy issued. We present indications, and from the information we have from our paper manufacturers, we shall probably be obliged to.

The response made by our subscribers to our late appeal, has been very satisfactory, though not as general as it should be. We shall receive subscriptions at our present rate until the 14th day of February next, after which time (unless there is some change in the prices of materials to warrant) the terms of subscription will be ONE DOLLAR AND FIFTY CENTS per year. We shall also at that time discontinue every paper not paid for in advance, without " fear, favor or affection," as the change in price will make such a course an absolute necessity.

WASHINGTON, Jan. 19, 1863. To the Senate and House of Representatives : I have signed the joint resolution to provide for the immediate payment of the Army and lavy of the United States, passed by the House of Representatives on the 14th, and by

The joint resolution is a simple authority amounting, however, under existing circumstances to a direction to the Secretary of the Treasury to make an additional issue of \$100,-000,000 in United States notes, if so much money is needed for the payment of the army

My approval is given in order that every ossible facility may be afforded for the prompt ischarge of all arrears of pay due to our sol diers and our sailors. While giving this ap-proval, however, I think it my duty to express my sincere regret that it has been found necessary to authorize so large an additional issue of United States notes, when their circulation and that of the suspended banks together have already become so redundant as to increase prices beyond real value, thereby augmenting the cost of living, to the injury of abor, and the cost of supplies, to the injury of the whole country. It seems very plain that continued issues of

nited States notes, without any check to the ues of suspended banks, and without adenate provision for the raising of money by oans, and for funding the issues so as to keep them within due limits, must soon produce disastrous consequences ; and this matter apears to me so important that I avail myself f this occasion to ask the special attention of ongress to it.

That Congress has the power to regulate the currency of the country can hardly admit of a doubt, and that a judicious measure to prevent the deterioration of this currency by reasonable taxation of bank circulation or therwise, if needed, seems equally clear. Inlependently of this general consideration, it would be unjust to the people at large to exmpt banks enjoying the special privilege of irculation, from their just proportion of the

The securing of this circulation by the lge of United States bonds, as herein sug ested, would still further facilitate loans by increasing the present, and causing a futur demand for such banks.
