ARMERS, CULTIVATORS AND LO-VERS OF GOOD POTATOES.—The celebrated "Garnet Chili " Potatoes, selected by Goodrich in a thir-teen years' experiment from more than tën thousand new seedlings, possess a higher degree of hardiness and adap-tation to all soils and weather than any other sort. They are round, ripen with the season, grow closely in the hill, do not push out of the soil, are very smooth and beautiful, have white fiesh and in most localities have been pronounced the finest and best potato for table use. In good soils and seasons and with fair cultivation, they will readily yield from 250 to 350 bushels to the acre, and in some hands have exceeded even those figures.— Secure seed now.—several bushels for sale.
