BUIST'S GARDEN SEEDS! It is an established fact that a large proportion of the Garden Seeds sold in the country are worthless or nearly so. The reason is obvious. Seeds are left by the owners with merchants to sell on commission, often but a small portion of them are sold, the remainder being returned repacked and sent out again the following year, and so continuing until as a matter of course many of the seeds are worthless. In order to get the best and most reliable seeds I have bought a large stock of Robert Buist, of Philadelphia, a house whose reputation for selling fresh and pure seeds is not surpassed by any in the country; and who never send out any seeds on commission, and consequently not liable to accumulate old stock.

I think a little reflection will convince any one of the advantage of purchasing these seeds. I have many varieties not to be found any where els e in town. Also Rutabaga, Beet and Carrot seed by the pound, and Peas by the bushel.

Please call and get a descriptive Catalogue at March 20, 1864.
