The official London Gazette publishes an important correspondence between Mr. Adams and Earl Russell concerning the depredations committed by the Shenandoah. Mr. Adams gives once more notice that the United States will hold Great Britain responsible for all the damages caused by these Anglo-Rebel cruisers. Earl Russell, as in former replies, insists that England has not violated any interrational law, and, therefore, is not responsible for the Rebel cruisers. In a second letter, Earl Russell mentions a statement made in a letter from Mr Adams in April, 1863, as to the Government of the United States being ready to refer these disputes to arbitration, and he declines to accept this offer. The only concession Earl Russell is willing to make is the appointment of a Commission to which shall be referred all claims arrising during the late civil war, which the two powers shall agree to refer to the Commissioners. The final reply of Mr. Adams, dated September 18, is very serious in its tone, and

expresses the opinion that the proposal of Earl Russell will not be accepted by the United States. Mr. Adams, in this last reply, again calls the attention of the English Government to the fact that if its doctrines and practices are allowed to become the rule, the United States will not be the greatest losers. The London papers which editorially refer to the correspondence speak of the importance of the international questions to be settled in this dispute, but do not appear to expect any serious complica-

tions between the two countries to arise therefrom.

GOOD FRUIT ! LUSCIOUS GRAPE

Chill Fever, Jamb Ague, Periodical Headache or Bil-ious Headache, and Bilious Fevers, indeed for the twhee class of diseases originating in biliary derangement, caused by the Malavia of miasmatic countries. Pever and Ague is not the only consequence of the-miasmatic poison. A great variety of disorders arise from its irritation, in malsrious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stom-ach, all of which, when originating in this cause put on the intermittent type, or some periodical. This "Cure" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as If he had never had the disease. Can this be said of any other care for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be ruthfully said to be a certain remedy. One dealer complains that it is not acod medicine to sell beceuse one hothe cures a The subscriber and his assistants, while selling taking orders for the choice Apple, Cherry and D Pear trees in the Towanda Nurseries, can, at the s time, take orders for Fruit and Ornamental trees that must be procured from elsewhere to fill said o o be a certain remedy. One dealer complains that it s not good medicine to sell, because one bottle cures a whole neighborhood. Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Dr. H. C. Porter, Towanda, also by all druggists and dealers in medicine everywhere. Oct. 9, '65-2m.

SUPERIOR GRAPE VINES

Much attention is being paid throughout our the propagation and caltivation of fine and has tive grapes. Wonderful improvements in this di have been made. The fine Foreign Grapes of have failed in open air culture in this climate: is a well known fact that, until within a few year have had no native American Grapes equal to t Foreign Such is the fact no longer.
