EVERY SATURDAY.—The Weekly is in our opinion, precisely what it claims to be—a journal of choice reading, selected from current literature. The editor has the range of all the English and Continental Reviews. Magazines, and first-class Weeklies, which press into their service the ablest, wisest, and witty writers of Europe. From this almost immense storehouse, he selects that which he judges best adapted to suit the taste and intelligence of the American people.

The selections in the numbers already issued have embraced a wide variety of topics, all of interest to cultivated minds, and nearly all of a character to do highly attractive to the majority of American readers. There have been excellent short stories, thrilling adventures, exquisite poems, graphic historical sketches, popular scientific articles such as appear originally only in English and French periodicals. In fact, it contains the cream of foreign current literature, and is offered at a price that brings it into the reach of all.

Each number being complete in itself, it is just the thing for travellers; and each number is of such sterling merit that it is just the thing for those who stay at home. Whoever wishes the freshest and choicest foreign periodical literature, must get "Every Saturday." It is published by Ticknor & Fields, Boston.

A CURIOSITY FOR THE LADIES.—There is on exhibition at the saleroom of Messrs. WHEELER & WILSON, No. 625, Broadway, the first Sewing Machine (No. 1) made by the company, the present number being 220,000. Let the interested compare the machine sold in 1851 for \$125 with those now offered for \$55. The former owner of this machine gives its history as follows.

The machine was invented early in 1851, and I learned its use from Mr. Wilson himself. I was thus, you see, the first to work the Wheeler & Wilson Machine, and learned on the first Machine they ever manufactured.

In 1855 I earned with the machine \$265, besides doing my own housework and taking care of my baby. In 1856 we came to Davenport and brought with me the machine. I believe it is the first Machine ever brought to Iowa.

I run that Machine almost constantly for more than fourteen years, on all sorts of work, from the finest dress making to the coarsest tailoring. I quilted a full sized white bed-spread with it which has been exhibited three times at the Fair. It took me three weeks to do it with my other work, but it could not have been done by hand in so many years. I have even stitched leather with it, and at the time I exchanged it, (in 1865) for No. 133,320 it worked just as well as when made.

Yours Respectfully F. E. D.
