Our total loss will not vary much from \$200,000, and is being promptly adjusted and paid. This sum is 5 per cent, upon the assets, a 1 figure but slightly exceeding our government and state taxes paid last year, or a proportion equal to a \$5000 tolss for a company of \$100,000 assets.

The necessity for insurance and the value of the wealthy, strong corporations, is forcibly illustrated by this fire. Several weak Insurance Companies are destroyed. Portland has a population of 35,000;—was handsomely built, mostly fine brick or stone structures—protected and screened with upwards of 3000 shade trees—bounded on three sides by water—indeed, literally, almost rising from the ocean—and with a good steam fire department—yet it has \$10,000,000 of property consumed in a few hours—upon a holiday when its people are least occupied—from the very insignificant cause of a contemptible fire cracker.

Remember the triffling origin of fires that sweep away in a few hours—toraker.
