The following notice of our village from the Waverly Advocate. It contains too GUNSHOP! ich truth to be complimentary, and we commend to the careful perusal of our borough fathers :-An article in the Athens Republican of last the north and general prosperity of Tobida, reminds us that we recently paid a brief to that village. We can vouch for its being dithy, and blest with a good share of individual exprise; but we think the village, in its corporcapacity, will not bear the very flattering nosit is accustomed to receive. Towards has a ster number of first-class residences than any other contents. The statement of the public square, near the Court House, where may be found Double and Single Barreled Guns, Rifles, Revolvers, Pistols, Cartridges, &c. r number of first-class residences than any place of its size within the limits of our acsher place of its size within the limits of our acquaintance, and the business portion of the town shull up in a highly creditable manner. All this however, is the result of that individual enterprise for which she is deservedly noted; but her streets, crossings, side-walks, gutters, &c., are really disgraceful to that otherwise beautiful allage. They show a bad administration of its torporate affairs—show, at least, such indifference to cleanliness, order and good taste, as would react discredit on any village of wealth. Pavements, so called, along the main thoroughfare, which have always been a stumbling block to perform the desired of the street of

destrians, remain to-day in the same condition they were thirty years ago, when the stones were pitched into their awkward positions. The back streets and suburbs are almost entirely destitute of side-walks, and all are lumbered up with fire-wood, posts, lumber and rubbish generally. We think that in this respect we never saw a more untidy village. We have no taste for peering into other people's affairs—on the contrary, we believe in the doctrine of every man's keeping his own door-yard clean; but we could not forego these much needed remarks with reference to a village in which we have heretofore resided, and in which we still feel much interest. We have probably already provoked a retort, but good will come of what we have said, even at that; and still more good would be manifest if the journals of that village would do their duty, and point out these evils to their people, and the derilection of their authorities in not correcting them.

SPECIAL NOTICES.

DR. COULTER, "Medical Electrician," of Philadelphia, has taken rooms on the first floor of the "Means House," where he will remain a few weeks, devoting his time to the treatment and cwring of chronic diseases by his new system of "Medical Electricity." This practice, after practical form of Mr. Tracy with the Democrats has been a piece of good luck to the Republicans. They are rid of annoyance. And what holds good of Bradford is true of Dauphin county.
