UNION REPUBLICAN

THE COUNTY TICKET.

We had only space and time, last week, to present the names of the gentlemen placed in nomination by the County. They are so well known to the people of the County, their nominations were made with

such unusual unanimity, that we deem it almost unnecessary to recommend them for the support of the voters. For Representative, the Convention re

KINNEY, of Sheshequin. There could be advocate of freedom he stood high, as a deno better proof that Mr. K. faithfully represented the people in the last legislature, than the fact that there was no voice raised against his re-nomination. Unassuming in his deportment, Mr. K. is thoroughly converssnt with all the great questions of the

cient and capable legislator, and will do the thus : County credit in the next legislature. His

olleague upon the ticket, JAMES H.WEBB of Smithfield, is perhaps as well known to the people of the County, as any man within its borders. He is noted for his zealous support of the principles of the Republican party for his earnestness and efficiency and sterling integrity. Thoroughly conversant with the public wants, the interests of the

people may be safely entrusted to his care.

For Auditor, ISAAC D SOPER of Burlington, was also nominated by acclamation. Mr. SOPER is one of the "boys in blue, having served with great credit in the 141st regiment. His qualifications for the office of Auditor, are unquestionable, and the se lection is a good one in every respect. For Coroner, Capt. J. H. HURST, of Her

rick, was nominated by acclamation. Capt. H. having commanded a company, in the 50th regiment, served his country brave ly, and bears upon his person the marks of severe wounds received upon the battle field.

We are gratified in being able to say with truth, that these nominations have given unusual satisfaction. Of their elec toin there is of course no question, but what is better stlll, the election of candidates has created no dissensions, and left behind no feelings of disappointment. The ticket is universally conceded to be a good one, judiciously made, and will receive a general endorsement at the polls.

> In this connection, a paragraph from an excellent article we published last week is so apropos that we here insert it :---

The only danger is that in some representative districts the people may be swindled by plausibili-ties and respectabilities; for when, in political contests, any villainy is contemplated, there are always found some eminently representable peop with a fixed capital of certain eminently conserva tive phrases, innocently ready to furnish the wolves of politics with abundant supplies of sheep's clothing. That they will persuade any intelligent voter to vote so as to give them power, we do not believe, and they will find after election, that however much our people may respect Judge Elwell as a man, they have no respect for the political position he occupies, and they will teach him not hereafter to become a tool in the hands of Copperhead leaders.
