NORTHERN TIER GAZETTE.-We omitted, last week, to notice the receipt of the "Gazette" which takes the place of the Times. The paper has been enlarged, and very much improved, and the two numbers we have received evidence that Mr. Hooker will make a paper worthy the support of the people of Western Bradford. Politically the Gazette is sound, and its editorial columns show that the editor is thoroughly familiar with the great questions of the day.

COULTER, "Medical Electrician," of Philadelphia, has taken rooms on the first floor of the "Means House," where he will remain a few weeks, devoting his time to the treatment and carring of chronic diseases by his new system of "Medical Electricity." This practice, after practical proofs of its superiority as a curative agent, has been adopted in the Hospitals of Paris, and London, and after being left for a time in this country in the hands of the inexperienced in its application, and ignorant of its laws, has been adopted by some of the most eminent of the Medical Profession.
