STRANGE FATALITY .-- Near the road be ween LeRoy and Canton, may be seen the foun ation for a barn, with a few sticks of blackened ad charred timbers lying about it. The history of this foundation and the structure which was atmpted to be placed upon it is a remarkable one he proprietor of the barn wishing to remove it m one side of the road to the other, invited ome of his neighbors to assist him. In taking the imbers down, one of the large beams fell, instant y killing one of the persons engaged. The jol was then abandoned for a few days, when it was again resumed, and the barn was removed to the ew foundation fixed for it. Here another very seous accident occurred. A bright little boy-son of the proprietor of the barn—was struck by a falling timber and killed. The work was again su ended for a few days, at the end of which time he work was commenced again, and completed .strange fatality yet awaited the structure. No oner had it been completed than it was struck y lightning and entirely demolished. This occured several years since, but the decaying walls and timbers have never been touched. They still remain to remind the neighborhood of the sad tale connected with them.

FRUIT TREES.—The business of furnishing Fruit Trees to the farmers of this County, has become a large and important one. Very properly farmers are turning their attention to raising fruit, which from the high price it commands in market, the REPORTER, has been removed a few can hardly fail in coming years to prove profita-

Col. FROST'S nursery has a high reputation, and he is one of the most reliable and experienced Horticulturists in the country.

ORIENT BURNING FLUID .- This burning flud which is manufactured in Elmira, N. Y., has been extensively used in New York and New England for the past year, and gives universal satisfaction.
