A STRANGE VISITOR .- Some persons ashing in the schute of the dam, by shutting off the water, last week, caught a reptile wholly unknown in this section. Invistigation proved it to be THE MONOPOME, Menopoma Allegeniansis,) found sometimes in the waters of the Ohio and Alleghany mers, and known as the Ground Puppy and Young Alligator. It is described as being extremely fierce and voracious, sparing nothing that it can overcome and decour. It is believed by the fisherman to be poisonous and is consequently much dreaded; its appearance being extremely

The one caught here is 221 inches long; the head flat and broad is 4½ inches long; imbs short and thick, with four claws on the fore feet and five claws on the hind feet, - inches long; the tail, which is laterally compressed is 9½ inches in length, 2½ inches wide; a fold of puckered skin runs down each side of the neck and body. Its color is slaty, resembling the color of a "bull-Lead." Weight 1 pound 13 ounces.

This animal is the first of the kind we have ever known caught in the Susquehanma. It is rare in the rivers where it is known to exist, and its history is but little known to naturalists. At is the most unprepossessing "fish "-we have ever seen.

RAILROAD EXCURSION. -The Annual Expursion of the Directors of the Erie Railway took place last week, and the party consisted of the officers of the Road, Directors, a large number of invited guests,

comprising many editors. The Excursion Train left Jersey City, Tuesday morning, June 18. It consisted of a baggage car, a dining car, two passenger codeties, long and short sized, and a sleep- ted. Our Rail Road is commenced and is ing car attached to the rear. Combined fixed fact .- Ithacq Journal and separately, they were meant to present the idea of the most perfect and elegant car accommodations—and indeed they were so. The dining or lunch car was arranged with small tables on either side, the forward section, being occupied by cooks and waiters. It was an elegant restaurant, and irit, ad libitum and at all times, the daintiest collations were served. The smoking car was a model of beauty and convenience. We have never seen our native woods displayed with greater taste and effect than an its interior. Ash, birch, black walnut and oak are combined in the paneling with remarkable skill. On one side are cane cated arm chairs, and on the other similar ones sociably disposed about round centre tables of black walnut. The passenger

coaches were marvels of beauty. The first day's run was to Elmira, where the party was lodged at the Hathaway House, leaving Wednesday morning, having new accession to the company from the itizens of Elmira. A quick run of seven hours, and Dunkirk was safely reached. Here the entire population had turned out, and the arrival of the train was the signal for the booming of cannon, the strains of world are all mixed together. At the close some enthusiastic individual proposed three cheers for Browen which were given with a will.

At Elmira, the train was halted to allow a brief visit to the Car and Machine shop, under the charge of Mr. RUFFER, whose thbrough system and order were manifest. We left the train at Waverly-but we learn that a pleasant journey safely ended at Jer-

Of the many pleasant incidents connected with this excursion, we have not room to neak—the more so, as they were personal in their character—but we cannot refrain from tendering, in common with our brethof the press, our acknowledgment, to President Berdell, Vice President Diven, Superintendent Riddle, W. ITHAGA & TOWANDA RAIL ROAD.—ITS LOCATION COMMENCED.—On Monday of last week, five of the Directors, accompanied by J. F. Hixson, Esq., left Ithaca for an examination of the proposed route of the Ithaca & Towarda Rail Road, and to decide upon its location upon the southern end, from the State line in the direction of Van Ettenville. The party consisted of Hon. E. Cornell, Hon. J. B. Williams, C. L. Grant, L. L. Treman and J. H. Selkreg. Mr. J. F.

So far as practicable an examination was mit at Spencer pond, and a like examination from thence south, through Spencer and Van Ettenville; just south of which latter village the last and most approved survey crosses Shepherd's Creek and continues on stere at the residence of E. CLEANSE THE BLOOD.—With Corrupt, or tauted blood, you are sick all over. It may burst out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. AYRE'S SARSAPARILLA purges out these impurities; it expels disease and restores fiealth and stimulates the organs of life into vigorous action. Hence it rapidly currs a variety of compaints which are caused by impurity of the blood, such as Ecrotula; or king's Evil, Tumors, Fleer's Sares, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipleals, Tetter or Salt Rheam, Scald Head, Ring Worm, Cancer or Cancerous Tumors. Sore Eyes, Female Diseases, such as lie tention, Irregularity, Suppression, Whites, Sterility, also Syphilis or Venereal Diseases, Liver Complaints and Heart Diseases. Try layER'S SARSAPARILLA, and see for yourself the sarprising activity with which it cleanses the blood and cures these disorders.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla but often no curative ingredient whatever.—Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound, "Sarsap

which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound, "Barsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has virtues which are irresistible fly the class of diseases it is intended to cure. We can assure the sick, that we offer them the best alterative we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered. overed. Has been proved to be the best for the following reasons: lst, It makes the Lock Stitch alike on both sides, which will save thread enough in a lifetime to pay for itself. 2d. It makes the Lock Stitch wit out a shuttle [a patent by Mr. Wilson,] dispensing with many wearing points. 3d. It has a Glass Cloth Presser, Braider and Corder, which no other machine has. Examine all the different patents, [they all claim to be the best] before you buy.
