The North Branch Association of Universalists will hold an adjourned session at Athens, Bradford county, Pa., on Wednesday and Thursday, Oct. 30 and 31st STEPHEN BULLOCK.

The corner stone of St. Luke's Church, at Scranton, was laid on Monday last, with imposing ceremonies, by Bishop Stevens, assisted by a number of clergymen. Amongst the names of those present, we observe Rev. Mr. Hoskins, and Rev. B. J. Douglass. The cost of the new church will be \$40,000, the materials freestone, and the style of architecture mixed Gothic and Elizabethan.

MARVELOIS ESCAPE .- A son of B. B Riccs, of Smithfield Centre, Pa., aged ten years, while in pursuit (with other boys,) of grapes, climbed to the top of a tree and anile picking the sought for fruit, stepped on a limb of the tree-it broke and he fell without any obstruction, a distance of forty the feet, on the hard ground and stones, on has back, and wonderful to relate escaped with his life and without any apparent serious injury. The distance was measured by his father .- Athens Democrat.

ESP O. H. P. Kinney, Esq., editor of the Waverly Advocate, has been nomina ted by the Republicans of Tioga County, N V. for member of Assembly. In making this nomination the party in that County have done themselves credit: Mr. K. formerly represented this County in the Legislature, and was a worthy and upright memher above even the suspicion of corruption. He is a sound, radical Republican, and as this election is certain, we congratulate the Republicans of Tioga, upon having done their duty towards redeeming the Legislature from the evil reputation into which it has fallen.

(Quite a busy time occurred at the Eye and Ear Institute yesterday. Four TEACHER'S EXAMINATIONS will be held blind persons were restored to sight, two of then being operated upon for cataract, and two for artificial pupil. In the afternoon two operations were performed for Lachrymal Fistula, the operation consisting in inserting silver tubes through which the tears are conveyed from the eye into the nose, the natural channel having been obstructed through disease. One of our citizens, also underwent an operation for Strabismus or cross-eye. We found the Institute crowded with patients, several of whom have come from the Western States to avail themselves' of the services of Dr. Up De Graff. The Doctor is doing a vast deal of good in our community among the poor, all indigent Ridgbury, Nov. 1 Burnham persons being treated gratuitously. We know of no institution of the kind in the country that is in so prosperous a condition as the Eye and Ear Institute of this city.-Elmird Daily Advertiser.

CHARLES L. REMOND will lecture in the Court House, at this place on Friday Evening, Oct., 18, 1867.

We bespeak for him a patient hearing on the important question of free suffrage which he has well studied and speaks upon with a candid, convincing ability. We clip the following from the Chenange Telegraph :

Mr. REMOND'S LECTURE. -On Monday evening Mr. C. L. REMOND addressed a large and appreciative audience, in the Congregational Church in this villiage, on the subject of political equality, or free suffrage. The lecture was clear, logical, eloquent and impressive, winning the highest econiums for the speaker, as well as the most favorable consideration of the cause he advocates. It was highly gratifying to note the entire absence of mimicry and buffoonery, which too often characterizes the lectures of color ed men, in the discourse of Mr. Remond Such speakers cannot fail of having a telling influence in favor of enfranchisement.

Post Office Robbery .- On Tuesday night last the Post Office at this place, was broken open and all of the valuable papers, and about \$25, and the drawers that contained the money and papers was abstracted therefrom. The robbery was, without a doubt, a premeditated affair, and committed by some one thoroughly acquainted with the

There are double doors to the front entrance of the office, one of which is constantly bolted at the top and bottom, when these bolts are out of the sockets which they shut into, Ithe door can be pushed open, even when locked : and they must have been arranged previous to the robbery, and while the mail was being changed that evening as there is generally a crowd in the office at such time.

Since writing the above, both of the drawers have been found with all of their contents, except the Postal Currency-one was found in rear of the Methodist Church, and the other in the wagon shed of N. C. Harris—the thief or thieves are still at large. -Athens Democrat.

the laws of Health. These gentlemen have already lectured in various parts of our County, to crowded houses, and from the reports which we everywhere hear, our citizens are to enjoy an opportunity of enjoying a knowledge of themselves which they cannot well afford to lose. Their lectures are illustrated with Manikins, Skeletons, Oil Paintings, M. Sunday School, 11 P. M. Prayer Plates, and everything desirable to render them plain and interesting.

Says our County School Superintendent, O. J. CHUBBUCK :-

"The Drs. Warner delivered a course of lectures in this place to the entire satisfaction of an intelligent addience. The lectures are interesting, highly instructive and use-Says the Owego Times :---

"The Drs. Warner are men of honor and bility, and well deserve the liberal patronage they everywhere receive. No person who has an opportunity should fail to hear their lectures and see their splendid anatonical cabinet." The introductory lecture will be at the Court House, Towards, on Monday evening

Family Sewing Machines. These Machines are superior to all others for family use; for the following reasons:

They sew with two threads dieect from the spools, and require no rewinding.

They are more easily understood and used, and less liable to derangement, than other machines.

They are capable of executing perfect,y, without change of adjustment, a much greater variety of work than other machines.

The stitch made by these machines is much The stitch made by these machines is much more firm, el stic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.

This stitch, owing to the manner in which the under thread is unwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty, even upon articles frequently washed and ironed, until they are worn out.

The structure of the seam is such, that, tho it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remains firm and durable.

Unlike other machines, these fasten both ends of the seam by their own operation. ends of the seam by their own operation.

With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made of with ailk. These machines, in addition to their superior merits as instruments for sewing, execute the most beautiful and permanent embroidery and

ornamental work.
