Nat-ural Teeth filed and restored to their original beanty, with material the best adapted to each individual case. The greatest care and atten-tion will be given to the correction of irrega-larities and the extraction of Event. In this Department of practice the Dector would say the claims an amount of skill and experience equal to that, possessed by any one in this or any other country. Teeth will be extracted without pain, by the uso of gas, chloroform or ether, and in a maner very satisfactory to pa-dents, as the testimony of hundreds can be shown. Please call and examine spectmens of the statements. Advice and consultation will be oherfully and granuitously given.
