PRESIDENT'S MESSAGE.

[Concluded from First Page.] army and sailors of the navy; the artisans who toil in the nation's workshops, or the mechanics and laborers who build its edifices and construct its forts and vessels of war, should, in payment of their just and hard-carned dues, receive depreciated paper, while another class of their the fiscal year ending June 30, 1867 countrymen, no more deserving, are the receipts were \$490,634,010, and paid in coin of gold and silver. Equal and exact justice requires that all the creditors of the Government should be paid in a currency possessing a uniform value. This can only be accomplished by the restoration of the currency to the standard established by the Constitution; and by this means we would remove a discrimination which may, if it it has not already done so, create a prejudice that may become deep-rooted and wide spread and imperil the Na-

tional credit. The feasibility of making our currency correspond with the constitutional standard, may be seen by reference to a few facts derived from our commercial statistics. The production of precious metals in the United States from 1845 to 1857, inclusive, amounted to \$579,000,000; from 1858 to 1860 inclusive, to \$137,-900,000; and from 1861 to 1867, inclusive, to \$457,500,000; making a grand aggregate of products since 1854 of 1,174,000,000.
