A NOTABLE EXAMPLE

There is no denying the fact be-

cause it is notorious in the action of both parties, that men who manage to get local political power as chairmen of county, ward and township committees, too often make these opportunities serve their own pecuniary greeds, instead of contributing to the uccess and strength of party organization. We are induced to indulge the expression of the distasteful and humiliating truth, after reading an address just issued by the Bepublican Mattson & Co., in New Orleans, was de- committee of Clarion county, wherein it is cloquently urged "that a united effort should be made to encourage the editor by all means in our po ver; and to that end we most carnestly urge upon every Republican in Olarion county, and all others who wish to aid him in his arduous duties, not -Three candidates for Governor only themselves to subscribe and pay of Georgia, under the new constitution, have for the paper in advance, but to use every means in their power to obtain the names of others, thus rendering him financially strong and independent in investigation of alleged corruption in the his position, and capable of bringing all his energy and ability to bear in the conduct of his paper." We commend this action to the consideration of the county committees of both parties, because we are convinced that a free and fulf circulation of the or the Carlists in Catalonia and Arragon has gans of Republicanism and Democra been planned, and active measures have cy, will result in Republican victories such as were never rolled up in any portion of the country. THE FIRST GUN OF THE CAMPAIGN .-The election in the Right Congressional District of Ohio to fill the vacancy occasioned by the death of the Hon. C. T. Hamilton, held on Tuesday last, resulted in the election of Gen. John Beatty, the Republican candiover Barnabas Burns, his copperhead

opponent. This is a most significant result. The majority in the district for Governor Hayes, last fall, was only 146, and the majority against negro suffrage 1,942. The copperheads assisted by the whole power which the Administration could bring to bear, made the most desperate exertions to carry the district, and were perfectly confident of being able to do it. The Boston Post, published on the day of the election in view of a copperhead victory, said: "This will be the opening victory of the campaign." It is the opening victory," but for the Republicans and not for the copperheads.

THE VICE PRESIDENCY-The Press says: Forty Pennsylvania Republican papers have declared in favor of Hon. Galusha A. Grow as their candidate for Vice-President. Mr. Grow has made a brilliant record as a thorough progressive since his election to Congress in 1850, and his continnous service in that body from that time to 1869. If he should be nominated at Chicago he would be most acceptable to our people.
