CHAMBERLIN is now keeping the GROVER & BAKER'S Family Sewing Machines. These Machines are superior to all others for family use, for the following reasons: They sew with two threads ciect from the spobly, and require no rewinding. They are more easily, understood, and used, and used. OUR ENTIRE STOCK OF FANCY Robes, Buffalos and Blankets, are being closed out at very much reduced rates, making it a great inducement to purchase at this sea-BUMPHREY BROTHERS.

and less liable to derangement, than other ma-chines. They are capable of "Xecuting perfect.y, without change of adjustment, a much greater variety of work than other machines. The stitch made by these machines is much more firm, elistic, and durable, especially upon articles which require to be washed and ironed. than any other stitch. This stitch, owing to the manner in which the under thread is unwrought, is much the most plump and beautiful in uso, and retains this plumping shed and ironed, until they are worn out. and less liable to derangement, than other m

frequently valued and ironed, until they are worn ont, Not The structure of the seam is such, that, tho' it be cut of broken at intervals. Stony a lew stitches, it will neither open, run, nor ravel, but remains firm and durable. Unlike other machines, these fasten both ends of the seam by-their own operation. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles sittehed or made up

with silk. These machines, in addition to their superior merits as instruments for sewing, execute the most beautiful and permanent embroidery and
