ANNOUNCEMENT OF THE LEGISLATIVE TERM.

The Legislature of this State adjourned on the 28th instant, after a session of over three months. Persons not immediately connected with either body have, not the remotest idea of the amount of work imposed upon the members of the respective Houses. It is true that a very large portion of the bills annually acted upon by the Legislature are of a private nature, yet they emanate from the constituents of the members, and as such have been sent here for the purpose of legislation, it is their duty to examine and scrutinize them, and if they are not considered injurious to the best interests of the State, to pass them. In the Senate, 1,800 bills were reported and acted upon in one way or another, and in the House of Representatives, 9,000 bills were also reported and acted upon. When we consider that the largest number of these bills are long, and difficult to understand, the legal minds of the House and Senate have frequently been called upon to examine them, and as "doctors frequently differ," the questions of difference had to be left to their respective bodies at large. We do not hesitate to say that the Legislature cannot be justly censured for any willful neglect of duty. It may be, that some bills have been passed of a private nature which ought not to have been approved of, but the responsibility rests upon the member who presented them. We feel certain, however, that no bill of a public character has escaped the watchful eyes of the Republican majority of the House and Senate, and we trust them in the name of the great Republican masses of the State that many important measures have received their final action.

The Monks American speaks the sentiments of the Republican press in its opposition to the trial of the late General Lee, which is to be held in the fall. The Republicans are of the opinion that the trial should be delayed until the election, and so is the Republican party. They have proved himself one of the most useful and reliable members of Congress. On all occasions, he has been a true representative of the people, and an able, firm and faithful exponent of the great principles essential to the life, the stability and prosperity of the country.
