In presenting to the attention of the farmer of the country, the above first-class Mowin Machine, we invite examination of its man excellencies, and claim for it the following superiorities: lat, Being high geared, it wout heavy, lodged or fine grass, better than any other Mower; the quick motion of the kniv preventing clogging or stoppage. Id Butter for rough or stopy ground: the guards being baced near to each other to protect the knins and prevent injury to the machine. 3d. F. hilly and uneven meadows, superior by reset that the wheels track inside of width of can holding the machine to its position better the thore that track outside, or upon a swath. The Young Warrior Mower, as improved, he been before the public for three reasons, as houdreds of farmers will testify to its capality to perform the work assigned it. These Mohines as now manufactured have several included the same of the many testimonials we select the following. Paragno & Co.—I have had one your Mowers for the past season, and take plasare in saying that it works to my entire straight is the best up-land Mower now in use.
