VISIT TO BARCLAY COLLIERIES. - Ret- outside manager, Mr., PROS. MUIR. Mine respective Vice-Glimpse of Barclay-Vices Sup't, and Maj. McDowner, Mine Eng'r., Coal-Coal Traffic-Future Developments-Offcers of the Company.—It affords us great pleasure to chronicle all matters relating to

the mining interests of this favored region and in taking a retrospective view, -comparing the estimation in which the coal fields of Barclay, Bradford Co., were held, not many years since, with the value now placed upon them, the reader will be amazed at the rapid development of mineral wealth which is now being made under the

A recent visit to Barchy has thrown a flood of light on what before we had only an inadequate idea. Our former explorations in this locality-dating back some fer years, left us with the erroneous impres sion that it was now as then, a wilderness The "Coal Bed" at "Gatisville" was only reached by a circuitous, declivous route, studded by stumps and interlaced with fallen trees-a by-road only frequented by hunters and pioneers during Spring and Au-

tumn, and traversed in winter by a few adventurers who went thither to supply the blacksmith's demand, for a radius of ten

great Pacific Railway, it seeks an avenue. The market for the Barclay Coal is extensive, and rapidly increasing in the Northwestern cities, and manufactories, where it is very popular. It can be used for all pur-

is applicable in place of the coals containing a larger percentage of volatile matter. Like all other detached basins of the Allegency coal fields, this is an assemblage of ghany coal fields, this is an assemblage of coal deposits separated from each other by erosions, but formerly part and parcel of the great original coal-field which once existed unbroken throughout this vast region—now broken into detached basins and elevated plateaus by the denuding action of the water.

The Barclay Ceal makes an excellent steam fuel—has no tendency to coke, contains but a small amount of bitumen and is remarkably free from impurities, such as sulphuret of iron—bands of slate, and that a quasi coal denominated bone.

Like all other detached basins of the Alleguany coal fields, this is an assemblage of an opportunity seldom offered for a great bargain.

Like all other detached basins of the Alleguany coal fields, this is an assemblage of an opportunity seldom offered for a great bargain.
