

CALENDAR FOR 1888. Table with columns for month, day, and date.

LOCAL AND GENERAL. THE TABLE—The following is the Time Table of the Pennsylvania and New York Canal and Rail Road Company...

WATERVILLE. P. M. P. M. A. M. ATHENS. 8:50. 12:30. 8:40. MILAN. 7:30. 12:30. 8:50. TOWANDA. 7:40. 1:15. 9:25.

Persons in want of wall paper will find an extensive assortment at Alvord & Barber's, very cheap.

A fine assortment of the Spring styles of Hats and Caps may be seen at GROSS & AMERY'S, South side Mercers' Block.

Active measures are being taken by the people of Troy, to organize a Fire Department in that place. The question seems to be, whether they shall have a steam or a hand engine.

The work of double tracking the Erie road between Hornellville and Elmira is now going on, which gives employment to a large number of laborers.

The powder mill of Messrs. DeWitt & Co., located at Wapwallopen, four miles from Troy, exploded at 9 o'clock Tuesday morning last, horribly demolishing and killing Messrs. Geo. Wildrich, foreman, and Wilson Eckert. The shock was distinctly felt at Newark.

D. B. BARNETT, proprietor of the Means House, in this place for the past years, has leased a large hotel in Poultney, Vt., and will remove to that place some time next month.

Wm. J. Thomas, of the Railroad House, will be the next occupant of the Means House.

Geo. Warren, proprietor of the Cuyler House, Waterbury, N. Y., cut himself quite severely one day last week. While he was having a stack of timber, the stack turned, and the blow struck him on the knee, making a very severe wound.

NATHAN EMBERTON, Constable of Athens p. m., met with quite a serious accident a few days ago. It appears that while driving through Athens, his horse became frightened, and broke loose from the harness, pulling Mr. E. out and dragging him some distance over the frozen ground. His face and side were considerably bruised.

THE RAILWAY EXPRESS.—The United States Express Company, according to an announcement recently made by the President of the Erie Railway, will cease running on and after Monday, March 27. All their roads owned by that Company.

Accosted For.—Our citizens have undoubtedly become aware of the fact that sugar, during the past two or three weeks, has taken a bound upwards in price. This is accounted for when we remember that sugar from whence a large portion of this article is produced, is in great commotion from inland rumors and rebellion, and that the supply is cut off by an almost total cessation of its manufacture.

THE APPROACHING OLD FELLOWS' FAIR.—The fifteenth annual Fair of the Society of the Approaching Old Fellows' Fair in America is to be celebrated in Philadelphia on the 26th of April next. It will probably be one of the most imposing demonstrations ever made by any Order. It is estimated that not less than 80,000 men will be in line, representing all sections of the country.

Our Young Folks For March.—The Publishers of Our Young Folks, Messrs. Osgood & Co., of Boston, announce their Magazine for March and April of this year, as specimens, to any persons who will send them their address.

We trust this very liberal offer will bring our readers into the notice of all our readers and be the means of introducing it into all the families where it is now unknown.

The Atlantic for March maintains the well established position of a first-class literary journal. "Malbone, an Old-Port Biography," is continued with increasing interest. "The Small Arms of New York," a penetrating picture of a certain phase of life in the Great City. "Co-operative Housekeeping" is continued. "The New Chapter of Christian Evidence," will interest all thoughtful readers, and "Consumption in America," is worthy of careful and attentive study.

What looked like a pretty serious war, broke out between the Erie and Northern Central Railways, last Thursday evening. Orders were issued at Elmira, to let no trains on the Northern Central, come on the Erie track. The switches were accordingly spiked. No trains were assigned for the proceeding, and it is supposed to have arisen out of a hitch between the Erie and Northern Central, in the possession of the Fort Wayne road, and a connection to Chicago. A train on the Northern Central, with 400 passengers from Washington, arrived at the junction, on Friday afternoon, about one mile below the Erie station, and got on to the Erie train. They were obliged to take the Erie train, and pay their fares on the Erie track. The difficulties, whatever they were, appear to have been mutually adjusted on Saturday last.

W. J. Underhill, that A. J. Tracy, who has for some time been connected with the Lycoming Gazette, has resigned of his interest in that paper.

The next discourse before the Young Men's Christian Association, will be delivered by Rev. C. O. Fox, at the M. E. Church, on Sunday evening, 14th inst., commencing at 7 o'clock. All young men are especially invited to be present.

FIRE IN ATHENS.—We understand that the dwelling house of Mr. Eason, of Athens, was burned on Friday night last. Most of the furniture was saved. \$600 in U. S. Bonds and \$300 in Greenbacks were burned. It is not known how the fire originated. Uninsured for \$1,200.

Professor Morse eclipsed—Lightning too slow for the times. On the 26th of January a package of cigar stumps was mailed at Towanda, for Tunkhannock, and on the evening of the 23d of February following, the package came safe to the owner. Time—25 days—distance—41 miles. Telegraph operators, please take notice. So says a correspondent of the Montreal Repository.

GEORGE MANNING, one of the first settlers of this County, came into Warren township, in the year 1815. The first time Mr. Manning was milled, was to Birmingham, N. Y., the distance of twenty-six miles. He took two bushels of wheat on his horse, and was gone two days, leading the horse the whole distance each way. Mr. Manning is now in the 81st year of his age.

Hon. JAMES H. WISE seems to be at work at the Capitol for the interests of his constituents, as well as those of the State. We see that he has introduced the following bill, and has granted relief to eleven soldiers of the late war, who were discharged on account of insanity.

MAILING PRINTING MATTER.—The attention of the public is directed, through the Post Office, to the following rule of the Post Office Department, which applies to printed matter of any kind which is not to be sent by mail, but which is to be sent by mail, and which is to be sent by mail, and which is to be sent by mail.

Postmasters will charge and collect postage, at the rate of three cents for each half ounce, or any newspaper or periodical, so marked or written upon as to give other information than that contained in the printed matter, which will be charged at the rate of three cents for each half ounce, or any newspaper or periodical, so marked or written upon as to give other information than that contained in the printed matter.

A Cool Rascal.—Mr. McCAUGHRAN, a gunsmith at Troy, was requested some time ago, to stock a gun barrel, by a young man, which was done, and one evening last week he came for his gun, and after examining the job and pronouncing it all right, turned and ran out of the shop. Not liking to give up his property in that manner, Mr. M. started in pursuit, leading his dog, and no one to intercept the thief, except a sharp foot-patrol, was the result. The rascal being young, soon left his pursuer out of reach, and it appears that he has made a gun stock, besides the honor of winning the race.

FILE YOUR LAMPS.—At this season of the year fatal accidents occur from the explosion of lamps in which kerosene is burned. A little knowledge communicated, and a little advice given on the subject, may tend to lessen the number of accidents, if not to prevent their recurrence altogether. Let those who use kerosene lamps take notice of these facts, and act accordingly. As the oil burns down in the lamp, a highly inflammable gas gathers over its surface, and as the oil decreases the gas increases, and will often ignite the gas, and an explosion is sure to follow, leading to death and destruction. Now, if the lamp is not allowed to burn more than half day, such accidents are impossible. Always fill your lamps early morning, then you need never fear an explosion.

CAUTION.—Good Templars are cautioned against carrying on N. S. F. a branch, a member of the Washington Lodge No. 474, who is engaged in luring in the different parts of our State, and in most places, represents that he is in the employ of the Grand Lodge. We are informed he has some places passed himself as Rev. N. S. F. and has been in the habit of placing bad notices printed with the title "Rev.," while at home he makes no profession of religion.

HE HAS DONE OUR ORDER and the cause great mischief in some places by these false reports. In all cases, where a lecture claims to be sent out by Bro. C. or the Grand Lodge, ask him to show his authority, for every one who is employed by us as a State Lecturer, can show commission.

FIRE IN WILKESBORO.—A very destructive fire broke out on Thursday morning, March 26, at one o'clock, on Market Square, burning the residence of J. H. Finner, a building occupied by Rittenhouse & Finney as a drug store, and that occupied by Kurtz & Wakenhus, as a boot and shoe store. These, together with some four or five other buildings, all of which were old time structures, consisting of log and frame material, burned with fearful rapidity, and were almost entirely consumed or reduced to worthless before the firemen gained the mastery. The following establishments of that city were compelled by this conflagration to change quarters:

Rittenhouse & Finney, drugstore, who lost about two-thirds of stock—insured for \$5,500; Wolf's auction room, loss not learned, but covered by insurance; Rothchild's clothing store, fully insured; Fields & Walker, boots and shoes, loss covered by insurance; D. S. Andrews, music store, loss covered by insurance; J. Zimmerman, general store, loss about \$200, not insured; Bissell Brothers, agents, loss \$200, no insurance; J. T. Trapp, photographer; J. H. Burrows, hats and caps; Borman's jewelry store, loss about \$400, covered by insurance.

RAILROAD WAR.—What looked like a pretty serious war, broke out between the Erie and Northern Central Railways, last Thursday evening. Orders were issued at Elmira, to let no trains on the Northern Central, come on the Erie track. The switches were accordingly spiked. No trains were assigned for the proceeding, and it is supposed to have arisen out of a hitch between the Erie and Northern Central, in the possession of the Fort Wayne road, and a connection to Chicago. What looked like a pretty serious war, broke out between the Erie and Northern Central Railways, last Thursday evening. Orders were issued at Elmira, to let no trains on the Northern Central, come on the Erie track. The switches were accordingly spiked. No trains were assigned for the proceeding, and it is supposed to have arisen out of a hitch between the Erie and Northern Central, in the possession of the Fort Wayne road, and a connection to Chicago. A train on the Northern Central, with 400 passengers from Washington, arrived at the junction, on Friday afternoon, about one mile below the Erie station, and got on to the Erie train. They were obliged to take the Erie train, and pay their fares on the Erie track. The difficulties, whatever they were, appear to have been mutually adjusted on Saturday last.

THE RAILWAY EXPRESS.—The United States Express Company, according to an announcement recently made by the President of the Erie Railway, will cease running on and after Monday, March 27. All their roads owned by that Company.

Accosted For.—Our citizens have undoubtedly become aware of the fact that sugar, during the past two or three weeks, has taken a bound upwards in price. This is accounted for when we remember that sugar from whence a large portion of this article is produced, is in great commotion from inland rumors and rebellion, and that the supply is cut off by an almost total cessation of its manufacture.

THE APPROACHING OLD FELLOWS' FAIR.—The fifteenth annual Fair of the Society of the Approaching Old Fellows' Fair in America is to be celebrated in Philadelphia on the 26th of April next. It will probably be one of the most imposing demonstrations ever made by any Order. It is estimated that not less than 80,000 men will be in line, representing all sections of the country.

Our Young Folks For March.—The Publishers of Our Young Folks, Messrs. Osgood & Co., of Boston, announce their Magazine for March and April of this year, as specimens, to any persons who will send them their address.

We trust this very liberal offer will bring our readers into the notice of all our readers and be the means of introducing it into all the families where it is now unknown.

The Atlantic for March maintains the well established position of a first-class literary journal. "Malbone, an Old-Port Biography," is continued with increasing interest. "The Small Arms of New York," a penetrating picture of a certain phase of life in the Great City. "Co-operative Housekeeping" is continued. "The New Chapter of Christian Evidence," will interest all thoughtful readers, and "Consumption in America," is worthy of careful and attentive study.

W. J. Underhill, that A. J. Tracy, who has for some time been connected with the Lycoming Gazette, has resigned of his interest in that paper.

The next discourse before the Young Men's Christian Association, will be delivered by Rev. C. O. Fox, at the M. E. Church, on Sunday evening, 14th inst., commencing at 7 o'clock. All young men are especially invited to be present.

FIRE IN ATHENS.—We understand that the dwelling house of Mr. Eason, of Athens, was burned on Friday night last. Most of the furniture was saved. \$600 in U. S. Bonds and \$300 in Greenbacks were burned. It is not known how the fire originated. Uninsured for \$1,200.

Professor Morse eclipsed—Lightning too slow for the times. On the 26th of January a package of cigar stumps was mailed at Towanda, for Tunkhannock, and on the evening of the 23d of February following, the package came safe to the owner. Time—25 days—distance—41 miles. Telegraph operators, please take notice. So says a correspondent of the Montreal Repository.

GEORGE MANNING, one of the first settlers of this County, came into Warren township, in the year 1815. The first time Mr. Manning was milled, was to Birmingham, N. Y., the distance of twenty-six miles. He took two bushels of wheat on his
