The campaign of 1869, may now be onsidered as opened, and it is the duty of Republicans everywhere to y upon the work of preparing the State for the coming struggle. Gov. THE PACKER NEGOTIATION. It is stated that Asa Packer, the

Democratic candidate for Governor of Pennsylvania, was nominated solely scause he is estimated to be worth \$20,000,000. Packer has nothing to recommend him but his bank account. He is old, infirm, and past his usefulness. Governor Geary, the Republican candidate, has served the country energetict and progressive. The issue be dollars, age, and imbecility against

brains, patriotism, and activity. The Reading Times says: Judge Packer was a supporter and defender Democrat and persistent Copperhead during the war-and a Repudiator and Rebel sympathizer since the war, and up to the presint moment. He is the best representative man the Copperhead party could have chosen ead their ticket. If any Union men vote for him on the supposition that he will be "all right" if elected, they will find themselves very much mis taken in the case of his success. The New York Herald thus curtly

isposes of Wednesday's work at Harrisburg: "The Democrats in Pennsylvania have nominated Asa Packer as their candidate for Governor. Asa Packer would make a good Governor, but the Convention that nominated him have hung a bob to that kite which chamberin.

Conneil Bluffs tean, in front of which I now sit. Council Bluffs will evidently be made a port of carry, and all the advantges of such a designation by legal enactment will accrue to the young city. There is no doubt otherwise, than that goods can be imported here threet by Cotineff Bluffs merchants, and put upon the market as cheaply as can be done by the merchants of New York, St. in the canyass in Pennsylvania will Louis, or Chicago, with freight saved. Take Liverpool as a starting point: From Liverpool to New Orleans, it is 4,750 inites; from Liverpool to New York it is 3.048 miles, or more than a thousand miles farther to New Orleans; from New Orleans to St. Louis it is about a thousand miles, making the distance from Liverpool to St. Louis.via New Orleans, 5,750, The shortest distance from New York to Chicago by rail, is, by the way of Philadelphia and Pittsburg, 935 miles; and 500 miles added to Council Philis, would make between Liverpool and Council

Louis and Liverpool, increase it to 6,248 miles. So far, then, as distance is: concerned, the importation of foreign goods-would naturally follow the shortest route, which is by the way of New York. Mere theorists would, take this as: cuts after the style of Brick Pomconclusive, and act accordingly. But, as an antithesis of this, we have a practical example which is worth more than all the theorizing that can be brought into an alliance. In the month of January of this year, a firm of this city had shipped from Liverpool, England, thirty-two crates of sorted goods by the: bark Bridgeport, to Council Bluffs by the way of New Orleans. The freight on these goods from Liverpool to Is not the negro a laboring man, and New Orleans was 161 cents per hundred weight: the ballot an "amelioration?" From New Orleans to St. Louis 25 cents per hundred weight, or a total of 711 cents per hundred weight for a distance of 5,750 miles. In contrast with this, is the fact that had the same goods been imported by the way of New York,

rough the distance is much shorter, the lowest rate of freight by rail that could have been obtained between New York and Chicagoon the same class of goods, would have been 83 cents per hundred weight. Add to this 83 cents the sented a new victim to be placed up- freight between New York and Liverpool, and on the political scaffold for the Genry it is easy to see what a margin is in favor of importation by the New Orleans route, and one can also easily understand why a Council Bluff mporter can sell goods as low as can be sold either in Chicago or New York.
