> We last week called attention the importance of a full attendance apon the part of voters at the Delegate meetings, to be held on the 28th inst., and we trust the matter will not be forgotton, or neglected. The men

who compose the county County Convention, will decide the character of the candidates to be voted for at the October election. A county ticket composed of the right kind of men will materially strengthen the State ticket, and add permanent strength to the party. The great necessity of our political system is the active participation of the best men. Without this aid no plan can work well. If the duty is neglected by them, it will not be surprising if political knaves and tricksters manage matters to suit themselves, and select candidates who will do their bidding when in office. If the good citizens in every district in the County, choose to do so, they can control the election of delegates and see that men who have the interest of the party at he art, men who are not actuated by any selfish motives,
