MAKE A NOTE.—Remember that Asa Packer, makes over \$30,000 overy month by increasing the toll on coal transported over his railroad.

All sorts of tickets are being sent out by the copperheads. Look out for them! They will try every means to reduce the majority on the county ticket.

No Republican can consistently give his vote for Geo. Stevens. He is one of the most strictly partisan men in the county, and could not be induced to vote for a Republican under any circumstances.

> THE New York State election for a Secretary of State, Legislature, Goverdor vote of 1868. Hoffman had 27,946 majority over Griswold. Fenton was elected by 13,789 majority over Hoffman. Lincon had 6649 majority in 1864, and 50,136, in 1860. Seymour had 10,000 majority in 1868. These are the immediate records with which the parties join issues again. The Republican State Convention

met on Wednesday/Sept. 28th at Sy-RY, Five Thousand Majority, if you racuse. Ex-Senator Dewitt C. Littlejohn, of New York city, was chosen temporary chairman and John A. Griswold, President. The New York city delegations were consolidated. A strong feeling was early shown in favor of nominating a ticket that could not be assailed on personal grounds, while equally deserving on political, and Geo. William Curtis was nominated for Secretary of State; Thomas Hillhouse for Comptroller; John C. Robinson, engineer, and others for the remaining offices to be filled. The nomination for Secretary, of State is certainly a strong one, and one that will commend itself to the people as a whole. Now the party in New York have only to throw aside those personal and partisan quarrels by which they have so often been defeated, and enter resolutely on the campaign in order to win, and by so doing they ought to be able to exceed their best majorities.

tion of that Convention than yourself, saving nothing about controlling its action. Mr. L. P. Stalford, you say, refused to move a reconsideration also; if Mr. Stalford was requested by you to move a reconsideration, then, of course, he voted in the affirmative, and against you when the motion to elect Ladd was carried. Now what position does this put you in, the delegate from your own town voting against you? What right have you to appeal to the voters of the County, when your own neighbors' refuse to support you? To one unbiased in the matter it would appear as if the members of the convention did the best thing they could do in reject-ing you, even though they did have considerable confusion at the time of the vote, they appeared to have sense at least. You "challenge any man to name an instance where you have not stood firm to the principles and incomintees of the party." How is it in nominees of the party." How is it in Dr. Ladd, nominee for County Treasnrer? do you intend to support him? he is a good man, and I think you would be more pleased with your vote if cast for him, than for the selfnominated "nominee" from Wyalus ing. Now, you are not the only one

who feels cut up about that convention; things got mixed and didn't come out right; one man was sure of Representative, wouldn't have given a fip to be warranted, but that bele-GATE from Sullivan Co. created such 'confusion" that he failed to connect in time, that same "confusion" slaughtered the innocents from Athple, become candidates on friends "recomendation. The advice of a "Voter" to you is,

take your address out of the papers four hundred and fifty-nine dollars and address yourself to writing an and seventy-four cents, distributed explanation of how it came to be written at all, follow the example of A. Johnson and declare you were drugged; anything would make you look handsomer than you now do before the community.
