The question is often asked, Why do so many of the Herrick folks their goods in large quantities and of reliable make so much effort to educate their sons and houses, so that they are able to sell first-class

GEO. LANDON is responsible influentially for considerable of it. He has been known frequently, and even on public occasions, to advocate with and sacrifices.

The Wesleyans have erected and completed a neat and commodious church at Herrickville, at a cost of about \$2,600. A move was first made to build a Union Church, open to all denomina-tions of christians, and for lectures, musical conventions-in short, for everything tending to the elevation of the moral and religious sen timent of the people.

Accordingly, application was made to Hen.

GEO. LANDON to write such a subscription paper and head it with his name, which he did with \$300.

There was so much opposition on the part of certain class who preferred a denominational church, that a new subscription paper was written and presented to Mr. L. for his signature again. He took it and wrote \$50. When the church was ready for dedication, Mr. Gro. C. Atwood placed a bell in the steeple weighing 828 pounds, costing \$390, at his own expense Just as we go to press, we are It will be recollected that he presented the East informed that the Waverly Steam Flouring Mills Herrick M.E. About this new Provision Storo!
The rush of trade would be so great,
From early dawn till ovening late,
That strangers passing by this way.
Would think 'twas general fraining day!
We'll therefore close this hasty scrawl,
By simply saying: Please to Call,
And see our Goods and learn our price,
And we'll convince you in a trice,
That you can buy Goods as low
Of PATTERSON & KINNEY,
As can be bought in Towands.

As can be bought in Towarda, Or any place—for READY PAY! Patton's Block, No. 2 Main Street. Jan. 13, 1870—1:n New Advertisements.

Towannia. All consultation and Examinations Dr. Clark examines and explains your disease without asking any questions. If he understands your case you know is, and cannot be deceived. It he cannot tell your disease and how you feel without saking questions, he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this stundard I am willing to be indged.

Dr. Clark treats no cases unless conscienciously of the opinion that it can be cured or permanently.

disease and its symptoms without interrogating his patient.

Dr. Clark will treat no Chronic Disease unless he can explain its character to the complete and perfect satisfaction of the patient examined. And the Dr. would here most positively state, that he desires no patient to take treatments from him, unless they are fully and completely satisfied with his consultations and examinations, which are made free from charge. Dr. Clark bases his practice upon the incontrovertible law of Nature. First—That every cause has an effect. Second—That diseases are causes producing effects or symptoms, and that every disease has its own poculiar effects er symptoms, which if properly or theroughly understood by the examing Physician, can be desary pointed out to the complete satisfaction of the patient examined.

Dr. Clark's method of diagnosing or explaining diseases and their symptoms is only the process of reasoning from clauses to, effect, and has been acquired by thorough literary and medical culture, and also by an almost unlimited practice in every form of disease to which the human system is liable.

By this process of reasoning the Doctor has acquired a reputation and success in treating diseases seldom attained.

Dr. Clark is making quite a number of convenient appointments for the benefit of invalids who cannot go a long distance to consult him. Patients will find this an opportunity rarely offered, and one they should not fail to take advantage of.
