leader in this enterprise is Mr. J. S. Seeley, from Rome twp. The price of pitch pine wood in Greeley is ten dollars per cord, and very scarce at to a point below those she pays, for we must underbid her in order to induce them to buy from us. Regard-ing protective duties as an obstruction to commerce, they resist their overtaxed, the mind loses its tone to commerce, they resist their overtaxed, the mind loses its tone and settles down in a gloomy disconreduce them, although to effect either tent that enfeebles the whole mother brings from Mercer county. There is also evitably compel a general reduction forth feeble sons, the sad mother, a large flouring mill here, the only one in this part of the country. Four There is a small colony of Pennsylrepeal the duties which now defend and protect the wages of the American mechanic and secure to him our generous home market for his labor, our stores and warehouses would be soon gorged with cheaper productions of the ill-paid labor of Europe and the proprietors of our mines, mills factories, and workshops would be forced by the want of a market for their higher-priced goods to discharge their hands and close their or the charge their hands and close their setablishments. Nothing can be clearer than this. And in three years from our abandonment of the workingmen is the result of the morphorte, lying at the base of the montains. The overland telegraph formerly passed through this place, and many of the poles are still standing. Two miles above Laporite and thirty two miles from Greeley, is a saw long the proprietors of our mines, and workshops would be forced by the want of a market for their higher-priced goods to discharge their hands and close their setablishments. Nothing can be clearer than this. And in three years from our abandonment of the workingmen in the body, drawn togethan the protective system the workingmen is the result of the morphorte, lying at the base of the montains. The overland telegraph formerly passed through this place, and many of the poles are still standing. Two miles above Laporite and thirty two miles from Greeley, is a saw long that the morphorte and thirty dollars per thousand at the mill. A company of colonists purchased 500. Music as an agent for promoting dollars per thousand at the mill. A company of colonists purchased 500. Music as an agent for promoting to mill, the nearest point at which lumber can be obtained, costing thirty dollars per thousand at the mill. A company of colonists purchased 500. Music as an agent for promoting to mill, the nearest point at which lumber can be obtained, costing thirty dollars per thousand at the mill. A company of colonists purchased 500. Music as an agent for promoting to mill, the nearest point at which lumber can morphoment of the dyi protective system the workingmen ther by true sentiments of affection, on the mountains caused the river to ward off fatal lung disease. The efprotective system the workingmen of the country would suffer again the agonies endured in 1837 and 1857, and British statesmen would be able, as they were, to comment upon the depression of American labor, and show that poverty and pauperism and physical growth, to as high preparation for personal independence.

The protective system the workingmen ther by true sentiments of anection, on the mountains caused the river to rise so slowly, that they only succeeded in floating them down to this mill, where the lumber is now being sawed.

At this place we found some excitement on the Indian question. A

citement on the Indian question. A have no care or thought for others, party of five warriors, belonging to but are contented with looking after among the canons: The trail thro! oysters, he made them, and put one some of the leading branches of her languishing industry. She has nativarial advantages, which counterbalance the lower wages of the Continent in the production of many articles, among which I may name salt, pig and bar iron, rails, both of iron and Bessemer steel cost steel and iron the normal condition of woman among the canons. The trail thro' loysters, he made them, and put one the mountain is one of the most splendid natural roads in the world, with a gradual ascent of about fifty not make him to be a sponge or an oyster; He made him with feet and bar iron, rails, both of iron and that it is one of nature's necessities. It has to be seen to be appreciated. In one lonely canon in the world. Bessemer steel, cast steel and iron steamships, with all of which she would supply our market in the absence of protective duties, and the granting of an American register to

A Life of Inature's necessities necessities in the should suffer through the period of maternity. It is because man habitation, surrounded by ought to be put in his coffin, for a man habitation, surrounded by ought to be put in his coffin, for a man habitation, surrounded by ought to be put in his coffin, for a mountains whose tops pierce the contented live man is a sham! If a clouds, we found a little grave, at the head of which stood a rude slab of says," I do not want to know any real sandstone heaving the inscript. red sand-stone bearing the inscriptioner," he is in a state in which he
