A "LIVE COUNTY PAPER." We publish elsewhere a communication from a correspondent, who signs himself "Sax-HORN," in which we, in common with the country press generally, are taken to task for hibernating or retiring from view upon important political questions as soon as an election canvass has passed by. Our correspondent suggests that if we will from the commencement of the New Year improve the tone and spirit of the REPORTER in a degree corresponding with the beauty of the new building we now. occupy as compared with the old one of the joint resolution authorizing we have just abandoned, we will "come nearer to satisfying the pub-"lie demand for a live county paper."
