EDITOR: E. O. GOODRICH. PUBLISHED BY A. W. ALVORD.
TOWANDA, THURSDAY, JAN. 26, 1871.
The members of the County Board of Supervisors are requested to meet at the Board Room, in Towanda, on Tuesday, Jan. 31, 1871, at 2 o'clock, p.m., for the purpose of making arrangements for the coming year.
The following-named gentlemen compose said committee: S. W. Alvord, D. Bourne, M. Gustin, D. F. Park, H. B. Parsons, James Donohoe, G. W. Brink, D. S. Pratt, J. M. Tracy.
We are under many obligations to the numerous friends of the Reporter, who have interested themselves in increasing its circulation. The substantial evidences of their regard for the paper, and the interests of the Republican party, as well as their kind words of encouragement and approval, are appreciated by us, and it shall be our constant aim to furnish a paper worthy of the cause we advocate and the support of all.
While our subscription list has been steadily increasing, there are many hundreds of Republicans who do not take the Reporter. Some of them say they cannot afford it, but we do not believe there is a man in the county so poor that he cannot spare two dollars to pay for a paper; and there is scarcely a family in the county who would not be benefited many times that amount by its perusal.
In order to increase the circulation of the Reporter, and thus aid in promoting Republican principles, we have concluded to make the following offer. There are half a dozen townships in the county where the whole number of subscribers named can be secured:
For every club of 100 we will deliver (at club rates), accompanied by the cash, we will give a copy of the Reporter, or a copy of the "Downing Book," from J. B. Linscott & Co.'s Catalogue.
Clubs must be made up and the money forwarded before the first of July.
THE DIFFERENCE.—In the Democratic Senate of Pennsylvania, the other day, when the case of a Democrat was contested, the committee, with Senator Beckley as chairman, disposed of the question, by giving the seat to the sitting member, without investigating the facts in the case, even though it was alleged upon good authority that it could be proven that enough illegal votes were cast for him to give the seat to his competitor. But this Democracy.
In the House, when a Democrat contested the election of a Republican Judge in Philadelphia, a committee was appointed who are investigating the facts in the case.
Which course is the most honorable?
It has become known, from the publication of official documents, that the Pope in October last in communicating by telegraph with the King of Prussia, requested his Majesty to secure his (the Pope's) departure from Rome with due honor, in case he should conclude to leave the city. King William replied affirmatively and telegraphed to King Victor Emmanuel to that effect.
OUT EARLY.—Many Democratic papers are hoisting the name of Senator Thurman as their candidate for President in 1872. Are we to understand that this Henderson, President, Vallandigham, and other shining lights in the Democratic household, are to be ruled out and kicked overboard?
The annual report of the Erie Railway Company for the year ending September 30, gives the following: Expenses of maintaining the road, \$3,080,693; expense of repairs and machinery, \$2,601,631; expense of operating the road, \$5,781,626; earnings, \$16,179,461.
We are unable to learn that any important change has taken place in and around Paris. It is reported that terrible destitution prevails in Paris.
A REMINDER.—A friend was recently looking over a pile of journals some thirteen years old, when he stumbled upon the following:
[Correspondence of the Press, England.]
DUBLIN, Feb. 27, 1858.
I learn that there is to be a meeting of the creditors of the Montreal company in your city on the first of next month, (next Monday), at which it is thought an arrangement will be made for the redemption of work at their establishment here. Such a result would be hailed with joy in all parts of the country, and especially in this place and vicinity. The statement of money at this establishment in days of prosperity is very large; some 2,500 hands are employed, and their wages range from one to two-and-a-half dollars per day. I have been here frequently in good times when this was one of the most bustling places in the State. Now it seems like Sunday in comparison with what it did only one year ago. The coal and iron interests are suffering very much on account of the depressed condition of trade of every kind. Yours, &c.,
That was in 1858, you observe, when there was no "panic," no "revolution," when we had very light internal taxes, and 30 per cent duty on pig-iron under the revenue tariff of '46. Twenty-five hundred men standing idle in one Democratic stronghold, and that is the state of affairs in 1871. In 1871 it will be just such a position as it held in 1833.—N. Y. Tribune.
There are now on French soil 21 permanent and 10 movable national battalions, belonging to the German Mail Service. Uninterrupted communication, by mail, is thus obtained over 200 English square miles, from the north of France to the southern point in Asia; the most southern point, and the furthest west in China.

Some of them say they cannot afford it, but we do not believe there is a man in the county so poor that he cannot spare two dollars to pay for a paper; and there is scarcely a family in the county who would not be benefited many times that amount by its perusal.
In order to increase the circulation of the Reporter, and thus aid in promoting Republican principles, we have concluded to make the following offer. There are half a dozen townships in the county where the whole number of subscribers named can be secured:
For every club of 100 we will deliver (at club rates), accompanied by the cash, we will give a copy of the Reporter, or a copy of the "Downing Book," from J. B. Linscott & Co.'s Catalogue.
Clubs must be made up and the money forwarded before the first of July.
THE DIFFERENCE.—In the Democratic Senate of Pennsylvania, the other day, when the case of a Democrat was contested, the committee, with Senator Beckley as chairman, disposed of the question, by giving the seat to the sitting member, without investigating the facts in the case, even though it was alleged upon good authority that it could be proven that enough illegal votes were cast for him to give the seat to his competitor. But this Democracy.
In the House, when a Democrat contested the election of a Republican Judge in Philadelphia, a committee was appointed who are investigating the facts in the case.
Which course is the most honorable?
It has become known, from the publication of official documents, that the Pope in October last in communicating by telegraph with the King of Prussia, requested his Majesty to secure his (the Pope's) departure from Rome with due honor, in case he should conclude to leave the city. King William replied affirmatively and telegraphed to King Victor Emmanuel to that effect.
OUT EARLY.—Many Democratic papers are hoisting the name of Senator Thurman as their candidate for President in 1872. Are we to understand that this Henderson, President, Vallandigham, and other shining lights in the Democratic household, are to be ruled out and kicked overboard?
The annual report of the Erie Railway Company for the year ending September 30, gives the following: Expenses of maintaining the road, \$3,080,693; expense of repairs and machinery, \$2,601,631; expense of operating the road, \$5,781,626; earnings, \$16,179,461.
We are unable to learn that any important change has taken place in and around Paris. It is reported that terrible destitution prevails in Paris.
A REMINDER.—A friend was recently looking over a pile of journals some thirteen years old, when he stumbled upon the following:
[Correspondence of the Press, England.]
DUBLIN, Feb. 27, 1858.
I learn that there is to be a meeting of the creditors of the Montreal company in your city on the first of next month, (next Monday), at which it is thought an arrangement will be made for the redemption of work at their establishment here. Such a result would be hailed with joy in all parts of the country, and especially in this place and vicinity. The statement of money at this establishment in days of prosperity is very large; some 2,500 hands are employed, and their wages range from one to two-and-a-half dollars per day. I have been here frequently in good times when this was one of the most bustling places in the State. Now it seems like Sunday in comparison with what it did only one year ago. The coal and iron interests are suffering very much on account of the depressed condition of trade of every kind. Yours, &c.,
That was in 1858, you observe, when there was no "panic," no "revolution," when we had very light internal taxes, and 30 per cent duty on pig-iron under the revenue tariff of '46. Twenty-five hundred men standing idle in one Democratic stronghold, and that is the state of affairs in 1871. In 1871 it will be just such a position as it held in 1833.—N. Y. Tribune.
There are now on French soil 21 permanent and 10 movable national battalions, belonging to the German Mail Service. Uninterrupted communication, by mail, is thus obtained over 200 English square miles, from the north of France to the southern point in Asia; the most southern point, and the furthest west in China.

LETTER FROM WASHINGTON.

WASHINGTON, D. C., Jan. 27, 1871.
The members of the County Board of Supervisors are requested to meet at the Board Room, in Towanda, on Tuesday, Jan. 31, 1871, at 2 o'clock, p.m., for the purpose of making arrangements for the coming year.
The following-named gentlemen compose said committee: S. W. Alvord, D. Bourne, M. Gustin, D. F. Park, H. B. Parsons, James Donohoe, G. W. Brink, D. S. Pratt, J. M. Tracy.
We are under many obligations to the numerous friends of the Reporter, who have interested themselves in increasing its circulation. The substantial evidences of their regard for the paper, and the interests of the Republican party, as well as their kind words of encouragement and approval, are appreciated by us, and it shall be our constant aim to furnish a paper worthy of the cause we advocate and the support of all.
While our subscription list has been steadily increasing, there are many hundreds of Republicans who do not take the Reporter. Some of them say they cannot afford it, but we do not believe there is a man in the county so poor that he cannot spare two dollars to pay for a paper; and there is scarcely a family in the county who would not be benefited many times that amount by its perusal.
