Bradford Reporter.

LOCAL AND GENERAL.

☞ It is thought that more new buildings are going up here this season, than in any previous year.

☞ It now appears to be pretty certain that glass works and a blast furnace will be located here.

☞ Chas. P. Case had a finger taken off while working in his steam mill, near Towanda, on Thursday last.

☞ Street Commissioner Dodge has commenced work upon the streets, and has done a good job in cleaning the Wyckoff.

☞ Tremaine Brothers & Pierson have two of their popular entertainments in this place during last week. We recommend them as being first-class in every particular.

☞ A. S. Hooker, of the *Northern Tier*, has been sorely afflicted during the past year, having lost his only child, his wife and his mother.

☞ The grading of the Ithaca & Athens Railroad is now entirely completed, and work of laying down rails will commence next week.

☞ The "oldest inhabitant" does not call to mind the time when March came in with more pleasant weather than we have been favored with the past few days.

☞ The funeral of Judge Conyngham took place at Wilkes-Barre on Thursday last. The Masons, members of the bar, county officers, firemen and clergy particularly in Business generally was suspended.

☞ Orman Frisbee, (colored), formerly of this place, who killed another man in Factoryville, N.Y., last spring in a drunken row, has been convicted of manslaughter and sentenced to the State Prison for three years.

☞ We learn that a boy named Wickham, 17 years of age, living in Shesheequin, accidentally shot himself on Sunday last, while taking his gun to go out shooting, and in getting over the lock and placed his mouth over the muzzle, supposing it to be unloaded, the gun was discharged, blowing the top of his head off.

☞ The Elmira *Daily Advertiser* says:

> It is more coal to pronounced superior to the Pennsylvania articles for domestic use. It kindles easier, burns freer, heats more, makes less smoke, swell nor bake over, and the cylindrical shape until burned up."

We cannot endorse that; this coal is also found in a large vein.

☞ A Sweet Old Lady.—A correspondent of the Smithfield, "T. C. W.," informs us that Mrs. Alsina Chaffee, of that township, is now nearly 80 years of age, and who for 60 years since, is the only living person of the first families who first settled there. She is, however, and makes cloth for herself and others. She has wove several carpets this season, and has now gone to nurse her daughter in Burlington.

☞ Historical.—Hon. John F. Meginness informs us that he has received the volumes of Barre History of the Susquehanna Series, and that he is making arrangements to go to post one set in a township, as the supply will permit. His plan is to have a set of each township subject to the inspection of the citizens of the town, who shall have the privilege of taking it home. As soon as his arrangements are perfected, he will give notice in the papers of the time and place where the books may be found.

☞ Incendiarism.—Mr. F. C. Hammett, of Ulster, had a mill burned last week. He was a heavy loser, as he had still engagements. Mr. H. has been extensively in the country, and has a reputation that is decidedly flattering for one of his years.

☞ Dr. Tarr, of Philadelphia, is visiting Towanda in the interest of the Sons of Temperance. He is meeting with much success.

☞ D. Ward, who has been confined to his house for several months past with ague chills, is now able to be out.

☞ A. Fellows, one of our most enterprising farmers, has purchased a new reaper, and started for his new home yesterday.

☞ We regret to learn that Dr. J. Lewis, of this place, has decided to remove permanently to Towanda, Pa., at which place our citizens will be surprised. The Doctor has been a long time in practice in this county, and has built up a permanent institution, and we hope that the decision under Dr. Bertron, now of Towanda, to remain in practice in this county, will induce our people to patronize home talent.

☞ Mr. Wm. Hall, of Ulster, has had many years experience in the business, and is a thorough practical man. He has also had the course to young men, and is a thorough Mathematician in the science of Surveying and Navigation. We commend him to the public as a competent man in every respect.

☞ Mr. Wm. Ward was especially requested to prosecute the murderer of Schaeffer, and he did so. He was arrested, and allowed to remain at his own house in the custody of Constable Bowen.

☞ Nathan Todd, Esq., summoned a coroner's jury, composed of the following persons: Harry Mix, Jas. McCabe, J. O. Frost, F. Watts, P. J. Carliss and I. B. Humphrey. After remaining in session for nearly two days and examining several witnesses, they made the following report:

INQUISITION.

Commonwealth of Pa., }
Bradford County, ss. }

An inquisition indented and held at Towanda, in the county of Bradford, the third and fourth days of March, in the year of our Lord one thousand eight hundred and seventy-one, before me, Nathan Todd, a justice of the Peace, acting as Coroner of the county aforesaid upon the view of the body of Wesley Eugene Schader, then and there being dead, upon the oaths of Harry Mix, F. J. Calkins, James McCabe, Francis Watts, Jas. O. Frost and Ira B. Humphrey, good and lawful men of the county aforesaid, who upon being sworn to enquire upon the part of the Commonwealth, when, where and how and in what manner the said Wesley Eugene Schader came to his death, do say upon their oaths that one Harry Ward, of Towanda, Bradford county, State of Pennsylvania, on the 22d day of February, 1871, at the dwelling-house of the said Harry Ward, in the borough of Towanda aforesaid, in the county aforesaid, in and upon the aforesaid Wesley Eugene Schader, feloniously, violently and of his malice aforethought made an assault, and that the aforesaid Harry Ward with a certain pistol of one lead in bullet into the body of the aforesaid Wesley Eugene Schader, did then and there violently, feloniously, with malice aforethought, shoot and give to the said Wesley Eugene Schader, then and there, with the pistol and leaden bullet aforesaid, one mortal wound, of which said mortal wound the said Wesley Eugene Schader, at Towanda aforesaid, in the county aforesaid, languished and languishing lived from the said 22d day of February, in the year aforesaid, to the 2d day of March in the year aforesaid, at Towanda aforesaid in the county aforesaid, of that mortal wound and not on the said Harry Ward then and there feloniously, maliciously and of the said malice aforethought, the said Wesley Eugene Schader, against the peace and dignity of the Commonwealth of Pennsylvania.

In witness whereof, as well the aforesaid Coroner as the jurors aforesaid, have to this inquisition set their hands and seals on the day and year and at the place first above mentioned.

Nathan Todd, J.P., acting Coroner, [Seal]
Harry Mix, "
F. J. Calkins, "
Jas. McCabe, "
Francis Watts, "
Jas. O. Frost, "
Ira B. Humphrey. "

The jury decided not to allow counsel on either side to examine witnesses before them, against the protest of defendant's attorneys, who claimed the right to appear in behalf of their client, and the decision declined to suggest any witnesses.

Mr. Ward was committed to jail, his counsel immediately applied for a writ of *habeas corpus* and had him brought before Judge Mercur, who, after examining several witnesses, admitted him to bail in the sum of ten thousand dollars. Col. J. F. Means and E. T. Fox signed the bail.

Mr. Ward feels confident that when the matter is brought before the Court, as it will be, it can be proved that the shooting was accidental.

The most intense excitement prevails throughout the entire community with regard to the affair, and many wild and exaggerated reports in circulation. We have been importuned to publish the evidence elicited before the inquest, but are advised by counsel for the prosecution that such publication would be improper at the time, and we feel sure our readers to await the trial, when we have no doubt an impartial hearing will be had and justice meted out. If Mr. Ward is proven guilty, he should be—and will be—punished; but he is certainly entitled to a fair trial, and should receive it.

☞ Messrs. Overton & Elsbree, of this place, and — Dunker, of Luna, N.Y., will assist District Attorney Carnochan on the part of the Commonwealth, and Messrs. Mercur & Davies, G. D. McKean, H. Hart and J. DeWitt have been retained by Mr. Ward.

☞ Mr. Editor: A few days since I had the pleasure of spending a few hours in the different departments of the Troy Gerard School.

The faculty consist of Prof. H. H. Hutton, the accomplished principal, and five lady assistants.

The departments are all complete, and are graded with special reference to the qualifications of the students.

The system and harmony of clock-work are observable throughout, and although the attendance is nearly three hundred, yet entire quietness and order prevail.

The people of Troy are deserving of a good school, having in the face of much opposition constructed a model house, provided it with all the necessary apparatus, and above all have at the expense of liberal salaries secured as competent and genial a corps of teachers as are to be found in the State.

And the people of Western Bradford are beginning to appreciate the efforts made to provide the intellectual well-being of their youth, and already its good effects are seen in a superior class of teachers in charge of the schools in that vicinity.

I was particularly impressed with the excellent discipline and system prevailing in the several departments, and the close attention by all the students to the work in hand.

I should mention a most interesting exercise in light gymnastics, an excellent drill in intellectual Arithmetic, a lively parsing class, and recitations in Latin and Mensuration. Just here I am pleased to be able to add that Prof. Hutton is soon to have published a work on Mensuration. It is already in the hands of his classes in manuscript form, and the success which has already attended its use fully demonstrates its value.

Heretofore it has been a burning stigma that we had no well appointed school in the county in successful operation where normal and classical advantages could be secured, and our teachers had to go outside of the county for instruction or remain poorly qualified for their most important vocation. Now we can point with pride to at least one institution in the county, where the best educational advantages are obtainable.

And we bespeak for Western Bradford a bright future. This enterprise has been put forward and sustained most creditably thus far, until it is no longer an experiment, but an accomplished fact.

May other sections of Bradford emulate the example of Troy, and then will our good county maintain her present proud position among her sisters in the Commonwealth.

☞ Items from the *Northern Tier Gazette*:

—Last week Eleazer Pomeroy had quite a chase after horse thieves. Some parties near Big Flats and Catlin, N.Y., had lost horses, and from some cause believing they had been brought to Pennsylvania, one of the owners came to Troy and called on Mr. Pomeroy to engage him to assist in their recapture. The two started in pursuit of the thief and soon found traces of him. At Williamsport, Pomeroy found that a telegram and handbill describing the property were in the hands of the Williamsport police, and *they* were on the track of the rogue also. After following the clue to near Shamokin Dam, the owner and Pomeroy found the policemen returning with the property, but they had let the thief escape. Mr. Pomeroy believes he could have done better than that himself.

—Cor. Killoorie returned last week from a trip to North Carolina, well pleased with the prospects of that region. He reports great numbers of northern men as settling about Elizabeth City, and thinks most of them are doing well. He saw our friend, Capt. Shaw, Esq., late of Canton, and says he is pushing business vigorously, being engaged in a general insurance business with his former partner, Wm. H. Smith, of Wellsboro. Dr. P. John, formerly of the Columbia County *Republican*, is publishing a paper at Elizabeth City, and is already becoming a man of mark in the State.

—Mr. O. P. Ballard, when making his escape from his burning dwelling last week, dropped his vest containing a valuable gold watch, which was burned. The fire, when discovered, was in the room directly under Mr. Ballard's sleeping apartment. It was Mr. Ballard's birthday, he being 73 years old.

The Barclay Coal Miner.—For some time past the miners at the Barclay Mountain have had in contemplation to insist upon an advance of ten cents per ton for mining coal. A few days since a committee waited upon Major Robert McDowell, Superintendent of the mines, and insisted upon the advance, which was refused. Other delegations continued to "interview" him, when the matter was finally compromised by allowing an advance of five cents per ton. No suspension of work occurred during the negotiations, and good feelings exist among all the parties concerned.—*Elmira Advertiser.*

We have made this new arrangement, believing it to be the only true system of doing business, and expect to devote the time heretofore given to book-keeping and collecting to selecting the best goods in our line which the market affords, and paying more particular attention to the manufacture of first-class work than heretofore.

☞ The muscular power of a man is usually made to operate either by his legs or arms, rarely by both together. It has been estimated that by the action of his legs upon a tread-wheel he can raise his own weight, averaging about 150 pounds, vertically through a height of 10,000 feet, in the course of a day of eight hours' duration, which is equivalent to 3,125 pounds raised through one foot in a minute. This is called the efficiency, or number of units of work done by a man of average strength per minute. Hence, it becomes every man to buy and eat pure and nutritious food, and the best place to buy groceries is at McCabe & Edwards'.

Next Week.—We are pleased to inform those in our community suffering with Rupture or Hernia, that Dr. Geo. W. Hotchkin, the inventor of a Springless Truss and Supporter which are said to possess great merit, is to make a professional visit to this place March 15th and 16th, and may be consulted by any who may wish to test or purchase his celebrated appliances, at his rooms at the Ward House. The Hotchkin Truss is free from spring and all hard substances, may be worn both night and day, and is so nearly perfect in its construction that the Doctor warrants permanent relief to every person to whom he adjusts or fits one, or no pay. This is a guarantee seldom offered, and those afflicted would do well to remember the dates. Communications will reach the Dr. at Alpion, N.Y.

☞ Mrs. E. C. Ackerman has employed Mrs. Amanda Carman, the popular dressmaker, who will after the 5th of December assist her in the duties peculiar to her vocation. To those who have employed her, the announcement will be sufficient; to those who have not been as fortunate we can only say, if you want your dresses cut in the most approved style and nicely fitted, give her a call.

Mrs. Ackerman also keeps a fine assortment of real laces, embroideries, patterns from Madam Demorest; also the greatly celebrated L. M. Julson's Improved Chart for cutting ladies', misses' and children's dresses, basques, sacks, &c. Charts of instruction to be had only of Mrs. E. C. Ackerman, Bridge Street, Towanda, Pa.

☞ We take pleasure in announcing to our readers the fact that our enterprising friends, Messrs. Carr & Vincent, have been appointed *District Agents* for the Saint Louis Mutual Life Insurance Company. This Company, besides ample security, offers to policy holders the most fair and liberal terms that can be given consistent with perfect safety. This, and its rapidly increasing popularity here in the East; as well as in the West, has secured for its name a prominent place among the leading Life Insurance Companies of this country. The selection of the above-named gentlemen to represent the Company is fortunate, and their well-known activity and business integrity will, we are confident, secure for the *Saint Louis* a fair share of business in this section of country. We would advise all who wish life policies to call upon them before insuring elsewhere. They are always on hand at their office, and ready to *show up their stock* and explain anything you wish to know about Life Insurance. They also represent the old Phœnix Life of Hartford, which is too well and favorably known here to need comment upon. Henry A. Burbank, Esq., their "Solicitor-General," is always around with his smiling face and pleasant address, seeking whom he may insure.

These Pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the *finest ingredients.* After a few days' use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, from the fact that sugar-coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. *TRY CATAWBA GRAPE PILLS,* being pleasant in taste and color, do not necessitate their being sugar-coated. *PRICE FIFTY CENTS PER BOX.*

H. T. HELMBOLD'S

EXTRACT BUCHU

Cures Diseases Arising from Imprudences, Habits, of Dissipation, etc.,

In all their stages, at little expense, little or no change in diet, no exposure, and no loss of time. It causes a frequent desire, and gives strength to Urinate, thereby removing Obstructions, preventing and curing Strictures of the Uthers, allaying pain and inflamation, so frequent in this class of diseases, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons, and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the "Poison" has, by the use of Copaiba, astringents, been dried up in the system, to break out in a more aggravated form, and perhaps after Marriage.

Use HELMBOLD'S EXTRACT BUCHU for all affections and diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing. *PRICE, ONE DOLLAR AND FIFTY CENTS PER BOTTLE.*
