Bradford Reporter.

FT EDITORS: E. O. GOODRICH. S. W. ALVORD Towarda Thursday, May 4, 1871 THE HIGH COMMISSION-ITS RE-

It is understood that the commis sion has virtually closed its labors despatches having, it is reported been sent from London to the British commissioners ratifying the terms of the proposed treaty-a draft of which, it is known, was sent from here some time ago. That draft is understood to have embraced: First. The Alabama and other reb-

el privateer claims. Second: The claims of British sub ccts against us during the rebellion Third. The Canadian fisheries, and our fishermen's relations thereto.

Fourth. The free or equal navigafion of the St. Lawrence river. Some minor matters were involved, such as a rectification of bounda ries, &c. But these are comparative ly of but small importance. It is al most idle to speculate on the terms agreed to, as there is nothing known reliably outside of the commissioners themselves. Almost all that has been said heretofore is guesswork, though some of it has been very shrewdly done. It is certain, however, that the treaty signed by Gen. Schenk and the other American commission ers, does not contain the abstrd conditions reported in the N. Y. Herald specials. Senator Summer is report- priations to pay the interest and the ed to have said that as far as he can

able to the American view. With regard to the fisheries so much is known that it may be said with considerable positiveness that no money-not a dollar-is designed or ever will be paid to the New Dominion for the mere privilege of fishing within the marine league, or of landing for repairs and obtaining supplies at British American ports. The most probable report yet made pay for the loss of their slaves, and is that for the free navigation of the we shall have added from fifteen St. Lawrence and the right of fishing liundred to two thousand millions to in Canadian waters, given our ship-pers and fishermen; the Canadians answer that they will. If they can are to have reciprocal privileges as hold power upon no other terms, far south as forty degrees, the latithey will consent to that or to almost tude of Philadelphia, thus giving them access to our mackerel fisheries, we believe—a privilege, we are -The Cooperstown Journal says told, more valuable than that which they bestow.

WHAT DEMOCRATIC SUCCESS

We have seen no better, clearer or more forcible statement of the effect justly remarks that the nation and of Democratic success, than the few the human race never needed the occasion of a recent screnade to that understand that the war between gentleman by his Indiana friends,

then in Washington. He said: moments to night what would be the inevitable result of the success of the President and get control of the National Government. In the first place the party can only succeed by carrying all the Southern States. In that case the Southern Democracy will constitute a majority of the partv. and will, as a matter of course dictate the policy of the party, and will control it in the future as they have controlled it in the past. Now I submit this question to intelligent men: Should the Southern Democracy come into power will they vote to tax themselves? Will they vote appropriations to pay pensions to Northern soldiers, and the widows slavery or its equivalent would be reand orphans of Northern soldiers. and unless theirs at the same time are provided for? Does any intelligent man believe for a moment that when they are placed in power they would appropriate one cent for pensions except upon the condition that the soldiers of the Confederate Army, their widows and orphans should be placed upon the same footing [Cries of 'No, no.'] That would perhaps, be the first effect—the first result of the success of the Demo cratic party. Again, does any intelligent man believe that the Southern Democracy, when placed in power will tax themselves, will make appro learn, the conditions are quite favor-

there is some provision first made for the payment of their slaves? They invested their money, their property in the Confederate debt. They lost it. In addition to that they lost their slaves, and they will never tax them selves one cent, to pay the nationa debt that was contracted for their subjugation unless their debt is in some way provided for. What, then will they ask at the hands of the Northern Democracy? What will they require? They will require that the United States shall assume and the national debt. Wills the Northany other poroposition. Besides hese Northern Democrats are committed in principle and in declaration to the payment of their slaves

THE WHY AND WHEREFORE.

From the time that Mr. Lincoln is sued his first proclamation, in 1862, the Democratic party has not failed to declare that slavery was unlawful and unconstitutionally abolished. In legions of resolutions, in years of declaration, that party is committed A review of the legislation since stitutionally abolished, and if it brought into power it cannot avoid gate our Southern Tellow-citizens" Democratic party in the work are all of the Democracy would consent to pay the South for their slaves with more cheerfulness than they would consent to pay the national debt. This then would be the second result lions to the national debt. Now, my When these Southern States pass in to the hands of the Democratic party, and when the National Govern-

ment passes into the hands of that party, they will be able to disfranchise the colored man in sixty days It would be attempted now by some of the Southern States, if it were not for the restraining presence of a Republican President, the fact that the National Government is in the hands of the Republican party. But, if the State governments and the National Government shall pass into their hands, they, having all the arms down there, having the military ex-perience, would drive the colored men from the polls or compel them to vote their own disfanchisment and stripping the colored people of The Democrats in Congress all their rights, and reducing them

Washington, May 1.—The payments by warrant during April, exclusive of the public debt, were: War, \$3,603,986.21; Navy, \$1,475, 938.92; Interior, \$1,280,693.21; Civil and miscellaneous, \$6,136,039,77. Total, \$12,446,658.11.
The total subscriptions to the new

loan to-day were \$613,000. The in-

ternal revenue receipts were \$1,033,-

The Turkish Charge d' Affairs, in this city, received from the Sultan, ice and humanity do they make the call, but to-day, a magnificent carpet, manufactured expressly as a gift to this government, and designed for the East Room of the White House. In accordance with his instructions he has by letter informed the President, through the Secretary of State, of the Sultan's desire to make the present as a testimonial of the friendly feelings entertained by the Sublime Porte towards the government and people of the United States, and has been officially notified of its acceptance. The carpet was made at the Imperial factory, and was a complete year in preparation. It weighs fifteen hundred pounds. Competent

judges say it is worth from nine to ten thousand dollars. It is woven in one piece, and was this afternoon put on the floor of the East Room. The Southern Claims Commission will shortly distribute printed lists of all claimants, to be bulletined at the post offices in the Southern States, for the purpose of throwing additional light on the loyalty of the multi-

RAWSON

Mowing Machine. HARVEST OF 1871. A NEW INVENTION.

PATENTED NOVEMBER 29, 1870,

And applied to every Machine; is so constructed that you do not have to use the lever in turning either way. It will run on any line just as easy acon a straight line, taking all the side pressure from the horses. It has a full joint and will describe a full circle either way, saving half the labor for the horses and driver. The upper frame is so jointed or attached to the lower frame, as to form a lifting lever taking a large part of the weight of the bar from the ground and placing it back upon the driving-wheels, and lessening the draft of the machine, making one of the lightest draft machines in ure.

The machine has been greatly improved will the making one of the lightest draft machines in ure.

The machine has been greatly improved and is
manufactured by using wrought iron and steel in
the place of cast iron. The Castor Wheel is upon a
steel spring with wrought iron hedders, making it
light and strong. We can say to farmers that they
can depend upon having a machine that has no
equal. It has cast steel shafts, and both shoes
plated with cast steel. Machines are warranted in
every particular. If any just breaks from defects in
material or workmanship new parts will be sent
without extra charge.

The Finger Bar is carried at both ends on wheels: without extra charge.

The Finger Bar is carried at both ends on wheels; can change the wheels so as to but three heights of stubble. The machine has a flexible finger bar, and the inventor over the ground over

will conform to the inequalities of the ground over which it is drawn, doing as good work upon innoven ground as upon even ground. THE REAR DAR MACHINE lias a double-folding Finger Bar, having a longity dival, oscillating motion. This machine has wheele at both ends of the fluger bar, and is so arranged that you can set them to cut any height, and can back out without raising the lover.

SULKY RAKES. We have also two manufactories of the Salky Rakes; the well-known Taylor Rake and the Dayton Manufacturing Company Rakes, making two of the best Bakes in use, at wholesale or retail. Manufactured at Almond, Allegany county, N.Y. by I. & S. RAWSON. C. F. NICHOLS, Gen'l-Ag't,
TOWANDA, DR. CAUTION.—Whereas my wife Eli-2a has left my bed and board without just cause or provocation. All persons are hereby forbid harboring or tructing her on my account, as I will pay no debts of her contracting after this date.
