Republican Convention!

At a meeting of the Republican Standing Committee of Bradford county, held in Towanda, on Tuesday, July 25, the following named members were present: S. W. Alvord, Chairman, D. Bocenk, D. F. Park, G. W. Brink, J. M. Tracy, H. B. Parsons, James Donahue.

The following resolution was adopted:

Resolved, That the Standing Committee recommend that the primary meetings for the election of delegates to the County Convention, be held on the afternoon of SATURDAY, Aug. 26, at such hour as shall be most convenient; and that in making the call, the Vigilance Committees *state definitely the hour for opening and closing the meeting.*

The Committee also earnestly recommend that all Republicans attend the caucuses in their respective townships.

The Convention meets at the Court House, in Towanda Borough, on Tuesday, August 29th, 1871, at 1 o'clock, p. m.

☞ We learn that the name of Jesse B. McKean of West Burlington, will be presented to the Republican county convention for nomination to the Legislature.

☞ We publish to-day a list of names of persons who have been suggested in connection with the various offices to be filled this fall. Their names should be considered at the primary meetings.

☞ To honor the memory of Sir Walter Scott a grand banquet will be given in London on the 15th instant, the hundredth anniversary of his birth. As his writings are household words among all English speaking nations, can we afford to pass by the day with out some appropriate celebration in this country?

☞ The campaign in Texas is represented as being one of the most exciting and vigorous the State has witnessed for some years. The Texas News says: "The whole people seem to be aroused to a knowledge of the fact that they are interested in such matters, and we predict that the pending Congressional canvass will be the most absorbing many of us have ever seen."

☞ The delegate meetings will be held on Saturday, August 26. The Vigilance Committees should give timely and specific notice of the *time* and *place* of the meetings, and then all Republicans should attend, have a full consultation, and send the very best men as delegates. Manage your own affairs without regard to the dictation of candidates or other interested persons.

☞ The effort of the managers of the Democratic party to create dissentions among Republicans in this county, does not meet with favor. Honest Republicans believe that they are qualified to select their own candidates without the aid of superannuated political hacks, who prate about "corruption" and "honesty," with as much assurance as if their past political history had been forgotten. We assure Col. Piollet, and his coadjutors that the Republican party can manage its own affairs, and is perfectly competent to decide who its nominees shall be.

THE TAMMANY FRAUDS.

The history of the Democratic party, for the past ten years, shows that it is not a party of patriotism, principle, nor integrity, and that its success would hazard every principle of American Liberty, paralyze the interests of the country, and bankrupt the National Treasury. As to the first charge, the attitude and conduct of the party during the Rebellion, furnishes ample proof. It was during that fearful struggle, an impediment in the way of its successful prosecution, and speedy ending. Its sympathies and utterances were with traitors, and all its aid and comfort were extended to those who fought to overthrow the government. Its attitude was that of constant opposition to the authorities; it rejoiced over the defeat of our arms, and mourned at rebel reverses.

That its success would hazard every principle of American Liberty, has been abundantly demonstrated by the late occurrences in New York city, where a blow was struck at the political and religious privileges of a portion of the community, which if carried out to its natural and inevitable results, would place the people at the mercy of an unreasoning and fanatical mob. As at present constituted, the Democratic party is controlled by an element, which is not the proper repository of power, and whose feelings and interests are inimical to the preservation of our civil and political privileges.

Wherever the Democracy has achieved success, and managed to get control of either State or municipal governments the grossest abuses and the most outrageous frauds have been perpetrated. The city of New York affords a notable example of the beauties of democratic misrule. The recent publication made of the knavery of the Tammany ring shows thieving of such magnitude and so open and unblushing, that it is almost incredible. The *New York Times* shows by the figures copied from the Comptroller's books, that the Tammany ring, have filched from the city treasury during the past few years millions upon millions of dollars, until all the parties connected with the ring, have become immensely wealthy.

To give our readers some idea how magnificent is this swindle, we invite their attention to the following items in the accounts, which are but a sample: The bills paid for carpets for the new court house and armories foot up $550,000! The space occupied by offices in the court house presents a floor-area of 9,216 square yards, which, if covered with carpets at $5 per yard, would cost $46,080. But some of the largest rooms are not carpeted at all, others are covered with oil-cloth and matting. The bill represents carpeting 122,222 square yards—something like thrice the area of City Hall park! Again—one Ingersoll was paid $170,729.60 for chairs furnished (?) for city armories alone. This sum would purchase 34,145 at $5 each! But then, an inspection of the armories shows that not a sixtieth part of that number of chairs were furnished to the armories, as indeed how could they be? Since that number of chairs could not be packed in all the armories of the city.

Again—from July 2, 1869, to April 16, 1870—nine months—one A. J. Garvey received the sum of $2,870,-461.06 for plastering and repairs of the new court house, armories and drill rooms of the city. There is very little plaster wall in the court house, the interior being largely of iron. Plasterers say that they would take the job at $20,000. Yet the plastering of the new court house cost the taxpayers no less than $268,-660.25! One firm received the enormous sum of $1,476,000 for chairs and tables for the same building! Yet it is said that $75,000 would replace the furniture. The sum of $1,-231,817.76 was paid to one firm for plumbing court house and armories in a term of nine months! During the same time no less than $5,663,-646.83 was paid upon the checks of Ingersoll & Co., or checks indorsed by that firm, for carpets, furniture, repairs and cabinet work, chiefly for the new court house. Many of the checks and entries are dated on Sunday, probably to take the rough edge off the fraud. Of these checks eleven were to the order of J. A. Smith, for carpets and shades, amounting to the snug sum of more than half a million. Yet the name of J. A. Smith as a dealer in carpets and upholstery does not appear in the New York directory at all. Upward of sixty thousand dollars is charged as paid to Mr. R. J. Hennessey; but Mr. Hennessey comes forward and publicly declares that he is not the lucky man who drew the money.

Imagine Mr. Garvey, or Mr. Ingersoll or Mr. Smith, with their hands in the United States Treasury after the practice they have in New York! Or imagine Tammany in possession of the General Government! How would our tax-payers relish such a state of affairs?

☞ A pleasant instance of the return of kindness is a legacy in bonds and stock shares, amounting to about $20,000, just left to the daughters of the late Henry Morris, of Philadelphia by a Mr. Horatio Ward, an American, but for many years a resident of London. The will says:

As these ladies are the grand-daughters of the celebrated Robert Morris, of the Revolution, it will not be difficult to ascertain their actual residence. It will, doubtless, surprise them to get a legacy from a person they never knew and perhaps never heard of, therefore it seems but proper they should be informed, that the bequest is made through compassion for their misfortunes, and in return for the kindness shown me by their father when I was a boy, and it may be as well that Miss Amelia Morris should be informed that it was I who sent some money to her and her younger sister, under the name of "her father's friend," 4 years ago.

☞ For a number of weeks before the riot of the 19th of July the New York *Herald* was engaged in uttering glowing prophecies of the progress and success of the Democratic party at the ensuing State elections. But a slight event sometimes changes the destiny of parties as well as of nations. The manner in which the Tammany leaders "botched" the little job their Irish friends laid upon them on that day changes the color and tone of the *Herald's* predictions. It says: "Three weeks ago, from the personal feuds and factions divisions in the Republican camp, between Senators Fenton and Conkling and Collector Murphy and Mr. Greeley, and others too numerous to mention touching the division of Custom House spoils and the sops to certain "'arf-and-'arf" Republicans from Tammany Hall, there was a fair prospect for at least fifty thousand majority in the State vote of November. But since the 11th and 12th of July this glorious prospect, like a castle in the clouds, has vanished into the air. The Irish Democratic element of the city has, to some extent, become demoralized, and the Democratic Protestant elements of the rural districts are becoming inquisitive."

The effect of the misgovernment, swindling and extravagance which has been so mercilessly exposed by the New York *Times* and other Republican papers has also aroused every honest and peaceable element of our population to the importance of a reformation. This can only be effected by dislodging the Democratic party from power in the city and State of New York.

☞ In a letter to the *Tribune* Henry Clay Dean says: I see a notice going the rounds to the effect that I have been contesting the "New Departure" of the Democracy in Iowa. That licentious and irresponsible sheet, the Memphis *Avalanche*, makes this rumor the subject of a low, scurrilous, characteristic article. The *Tribune* notices the same thing.

Will you do me justice to state that I have nothing to do in any way with the New Departure, nor have I uttered a word in public upon the subject? That I have neither appeared to take the new oath or receive a parole at the "general surrender" of the Democracy. This I hold logically true: that, if the Republicans were right in making the war, creating the debt, and changing the Constitution, I can see no reason why a new set of leeches should be applied to the body politic for the mere variety of change.

I was honestly opposed to the war and its consequences, and in favor of the repudiation of the public debt, or its payment in greenbacks. Of little value as my opinions may be, I am determined that they shall not be misrepresented without contradiction. Thousands hold my views.

☞ The Philadelphia *Press* says truly: Another splendid showing is made in the statement of Secretary Boutwell for July. Gradually but surely the burden imposed on the country by the Democratic rebellion is being lightened under the administration of the Government by General Grant. The reduction of the debt during the past month amounted to the large sum of $8,701,-976, making a total decrease since President Grant's inauguration of over $240,000,000.

These monthly reductions are practical arguments of the strongest kind in proof of Republican economy and sound financial management. Let every voter contrast them with the notorious and stupendous robberies by the Democratic administration of New York city. The Republican rulers of the nation are reducing both taxation and the debt. The Democratic rulers of New York are increasing taxation and the city debt at an alarming rate, and have been proved by their own books a set of outrageous theives.

☞ Mr. Herrick, chairman of the "New Departure" county committee will have to revise his list of vigilance committees. Last week we published the names of two in one township, who declined to serve on the committee, or have anything to do with the party of rebellion and riots, and now we have another. It is unnecessary for us to add that all these gentlemen—J. Stowell and J. Stalford of Wilmot, and R. Luther of Burlington—are Republicans and always have been, and the action of the Democratic committee in publishing their names, is only in keeping with the "principles" of that party:

Luther's Mills Pa., August 7, 1871.

Mr. S. W. Alvord—*Dear Sir:* I see by the *Bradford Argus* that my name is used on the Democratic Vigilance Committee of our Township. It was put on without my knowledge or consent, and I beg, if you please, insert in your paper to that effect, and much oblige

Roswell Luther.

☞ By wise Republican rule, and the strict observance of economy in all the branches of the National Government, U. S. Grant has reduced the national debt, from March 4, 1869 to March 1, 1871 Two Hundred and Four Millions, Seven Hundred and Fifty-four Thousand and Thirteen Dollars! What is Grant doing? What are the Democracy doing in cities like New York, where they have the control?

☞ A special, from Atlantic City, says: "About thirty persons, after eating corn-starch pudding at dinner, at the Alhambra Hotel, showed signs of having been poisoned. No deaths are reported. It is supposed arsenic was put in corn-starch by a discharged servant."

☞ Gold closed in New York yesterday at 112¼.

THE COAL TRADE.

The Mauch Chunk *Coal Gazette* of the 4th, says:

SHIPMENTS.

Up to the close of last week there has been transported south from here, over both railroads and the canal, since the 1st of January, 1,536,909.12 tons.

Last week the shipments from here amounted to 147,738.09 tons, being 8,946.17 tons more than the preceding week.

The corresponding week last year 105,932.02 tons were sent south from here, and the total for last year to this time was 2,436,833.05 tons.

In comparing the shipments of the past week and the present year with corresponding dates of last year, we find an increase for the week of 1871 of 41,806.07 tons, and and a decrease for the present year of 899,923.13 tons.

THE TRADE.

The coal busines continues steady, and the shipments from here are still on the increase. As will be seen in our report above, they are less than a million tons behind what they were at this time last year. The carrying companies are doing as much as they care to do, and shippers find a ready sale for all their coal. Altogether trade is quite as good as any one could reasonably expect, except along the line. Those engaged in this branch of the business complain that business is flat and dull. Orders from the city, however, are not scarce. Prices, although low, are steady, and likely to remain so for a few weeks at least. We understand that some of the companies have commenced laying in stokes in New York, but do not, as yet, carry it to any great excess. We believe the time has now come for consumers in the cities to lay in their supplies for winter use, as prices will not be much if any lower. We have received letters from a number of readers in the cities on the subject, and we advise them to buy now.

KENTUCKY ELECTION.

LARGE REPUBLICAN GAINS.

Louisville, Aug. 7—1 P. M.—The election in Louisville, thus far, shows heavy Republican gains.

In Frankfort, Ky., Leslie (Dem.) for Governor has 590 and Harlan (Rep.) 690.

A report of the election in Danville up to noon gives Leslie 363 and Harlan 582; for Representative, Harkins (Dem.) 393, and Barkley (Rep.) 558.

SECOND DISPATCH.

Louisville, Aug. 7.—The returns generally show Republican gains. The Republicans concede Leslie's election by about 20,000 majority in the State. It is variously estimated here at from 26,000 to 30,000 which is a falling off from the Grant-Seymour election of 26,000 to 36,000, and 40,000 to 50,000 from the last Gubernatorial election.

All the Democratic candidates for the Legislature are elected.

New York, July 28.—A special London dispatch says the earthquake in the Phillipine Islands on May 1st, affected in a terrible manner the small island of Camiguin, five miles from Misamis. For some months previously, especially in March, there was a succession of violent shocks, which opened extensive crevices in the earth. Finally, on may 1st, the level plain near the village of Catarmin began gradually to subside until the tops of the houses became level with the suface of the earth. This remarkable phenomenon attracted a large number of people when suddenly some terrible shocks were felt, and before the thundering reverberations had died away the whole level plain fell in engulphing one hundred and fifty persons. The plain became the crater of a volcano 1,500 feet wide, and from it smoke, ashes and stones were thrown into the air. A pause till dark succeeded, when there was another explosion and a rain of fire followed. The spectacle was fearful in the extreme. The volcano continues to eject stones and earth. The inhabitants have left the Island, which formerly contained a population of 20,000. Camiguin produced one-tenth of the whole manilla rope grown.

☞ The case of Mrs. Wharton, the Baltimore woman accused of wholesale poisoning, seems in a fair way to be prejudged. In view of the lady's high standing, hitherto the charges brought against her were almost incredible, and yet there appears to be strong circumstantial evidence of their truth. In the very nature of the case, however, no positive conclusion can be found until the courts shall have sifted and passed upon the evidence. Yet many journals seem disposed to condemn Mrs. Wharton in advance. If her counsel can now succeed in securing for her the impartial trial to which at least she is entitled, it will be a singular instance in the annals of criminal jurisprudence.

☞ The Hollidaysburg *Register* charges Hon. Wm. A. Wallace, Chairman of the Democratic State Committee, with plotting to carry Blair county by fraud. There is little doubt that he is plotting to carry the whole State by fraud; but his tricks are so well understood that, if proper vigilance is exercised by the Republican State Committee, there is little danger of the wily and unscrupulous leader of the Democracy succeeding in his design.

☞ The *Argus* of last week under the head of "Pennsylvania defalcates," publishes H. L. Scott late collector in this district as indebted to the Government to the amount of over $30,000. The editor admits that he knew it to be untrue when he printed it.

A GOOD CHANCE FOR A BUSINESS MAN.

FOR RENT,

The well-known Bakery and Eating House, nearly opposite the Means House, is now offered for lease for a term of years, at eight hundred dollars per annum. The building is three stories and basement, with a good oven and all the fixtures for a Bakery. The second and third stories are fitted up for a dwelling. The establishment is doing a good cash business, and the only reason for selling is that the present proprietor does not understand the business. PETER McMURROW.
