WYALUSING RAILROAD. The organization of the Rail Road company by the citizens of the Valley of the Wyalusing, proves them to be alive to their true interests, and their lands and products, and cheapen their coal and groceries by cheap and rapid transportation, and to give comfort and conveniences to their families.

This road not only opens up to the citizens of Wyalksing creek from the mouth to the Forks, which is sufficient of itself to warrant its casy construction, but it will be extended to near LeRaysville, to Little Meadows, and even towards Montroso; which is having a road of its own. This Road also is on the natural route, and may soon be a link; by

which the two great rail centres of Binghampton, New York, and Williamsport, Pa., will be connected and developed coal and timber land of found. Sullivan county.

This road will enable a large number of citizens from the eastern part preserved. The funds in the cash of the county to visit our town who are now prevented by the tediousness and delay, and the great discomforts of bad roads; as compared with the rapid transit and the ease by which the journey can be made by rail and comfortable cars.
