The Pennsylvania School Journal for June, the last number of the current olume, is upon our table. The index which is found in the present number, shows the volame just closed to be rich in matter of educacational interest. The present issue contains year making over 400 pages. Among the lead-

ng articles in the June number, is one from Mr. W. V. DAVIS, upon "School Affairs in Utah." The Editorial and Official Departments ire full and varied; the department of Misocllany of special interest ; and on the Music page this month, which is a permanent feature of the Journal, we find the National Hymn, in

clear, open type, anticipating the Fourth of Ju-ly. The twenty-first volume begins with the July No. Every teacher and director would be enclited by the monthly visits of this periodical. Subscription price, \$1.50; to clubs of five or more, \$1.25. Begin with the volume, take it no year and you will order it again. Address P. WICKERSHAM & Co., Lancaster, Pa.

ED. REPORTER—Dear Sir : 1 have waited nearly our whole College year, hinking to write an article which should answer the many questions my friends and friends of education, would like answered. But as I cannot spend the time, I send by to-day's mail the pamphlet form of the article last August ublished in Scribner's Monthly, and trust you will find room in your columns for at least a part of its contents. It is not as concise as Tubs, Firkins, Butter-Bowls and Ladles, and night be, but the flowery description of the grounds can be omitted, and from the rest you an easily arrange a very satisfactory account

of "our doings." This year our rising bell does not ring until 6:30 A. M., breakfast 7:15, last retiring bell at near the depot, on the opposite corner from | 9:45 r. m., thus giving a little more brain rest. Will you not make that change in the account that whoever reads may see we do not adhere to the barbarous practice of some educational institutions. The College and its appointments is well worth time and trouble.

Tuscanona.—The fourth anniversaof the Progressive Temperance Society, held at East Springhill, May 30, was a success. Owing to the "weeping skies," the A. M. exercises were held in the Church. The P. T. Society hely At a meeting of the Directors the Camptown, came over in loce, accuracy, the Camptown Brass Band, composed mostly from Camptown, came over in force, headed by the Towarda Iron Co., held on Tuesday of members. The Tuscarora Creek Band was is charg, Col. J. F. Means was elected to fill also on hand, so that there was no lack of muthe vacancy occasioned by the resignation of sic. We should like to speak a good word for h. I. Elliorr, and H. L. Scorr was elected the Band boys, but they are capable of doing report of the President nor the address of Rev.

dunnougus. Dinner was served up pic-nic fashion, and there was "enough and to spare." Then came a march to Band music, headed by Marshal Aveny. Rev. P. R. Towen gave an address on "Self-Government," containing many good points and illustrations. Maj. Aveny represented the Camptown Society in a short speech, ollowed by a declamation entitled "Our Starry Flag," by a member of the Camptown Band. Mrs. SEAGRAVES then gave a forcible and cloquent address on the right and duty of woman to work in the temperance reform. A copy was requested for publication. Misses Cogswell and STUBBLEVANT sung, "I'll marry no man if he drinks." Rev. D. C. BARNES responded briefly to a call, and the people dispersed, saying in regard to the next anniversary, " May I be there." The exercises were enlivened by songs from East Springhill choir, and stirring airs from the Bands. Who will say the cause of temperance is not progressing? And we put

Inscarora down as the banner township in the temperance cause. Grasshoppers are putting in their appearance and promise a large crop. Our Springhill farmers want 160,000 turkeys to gobble them up while on the hop. ALPHA BETA. June 8, 1872.

For a number of years past he had been somewhat seriously afflicted with a disease of the lungs, which seemed to be taking deeper and deeper hold on the respiratory organs, and finally on the 25th culminated in his death. Mr. Browning was a blacksmith by trade, but the premonition of the disease of which he died induced him to abandon almost entirely his trade, and accept position as a fire insurance agent, which igency he held for many years with credit to himself and entire satisfaction to the companies Coal for Spring and Summer use. Nothing like he represented. Esquire Buowsine was a good all down to white ashes, and renders coal sieves in other expressions of confidence and exteem of no further use. Thurston, Lowell, Mass. 1838, and to David Hill, Bridge-port, Vt. 1844; in his possession acquired great favor. This horse got more high priced colts than any horse of his day. He died Nov. 1856; he was the sire of Ethan Allen, and grand aire of the dam of "TOWANDA." One white pastern behind, black points, dark bay, 15 hands 3 inches high, 5 years old in July. He is one of the most remarkable and his country has produced. He is beautiful, blood-like, of great strength, and action perfect. His is in close proximity to two of the most noted stanlions in this nation, Hambletonian and Ethan Allen; and as the sires of trotters, these two great horses stand far above competition in this or any past generation. A better infusion of blood is not in the American horse than in "TOWANDA." He is a most fortunate cross. He bids fair for a brillent future in all respects. He is a success, and true merit will be appreciated by candid fudicious men. We have arrived at a period when mere stilted gabble about the horse is of but little account, and anything of value in his history or breeding, cost labor, long reacreh, thought and money. THE GREAT FAMILY DOMESTIC SEWING MACHINE Was improved January, 1872, since which it bears all the latest improvements that invention has produced making it one of the greatest triumphs of art. Machinists are wonderfully delighted with its simplicity and power so great. All parts strictly interchangeable. If any part breaks a new place will fit exactly. Great range of work, finest muslin to coarse Beaver or Bole Leather. Cannot make it drop a stitch. Tension will not change in sewing as in other machines. It is one of the most popular Machines where it is known ever placed before the public, it pleases overybody. All admire it whenever seen. People that have them are so delighted with them they are writing to friends to buy this machine if any, for it will do anything that any will, and runs so easy and requires no trouble to learn to run it. The astonishing fact that since January, 1872, having received all the latest improvements, a months, the company have sold nearly 30,000 Machines, with so few agents and small territory canvassed, shows conclusively that it has no parallel and that our people are an intelligent people. I have been desirous for a few years to get the agency of a Sewing Machine that I could sell and recommend without exagerating the-truth or deceiving any one; and my time has come. I have been confined indoors so long I feel like a caged bird that wants liberty. And now friends, all that want to buy a Sewing Machine, no matter if your mind has been set upon some other, be so kind as to inform me by letter, or otherwise, and I will cheerfully bring you a Domestic, and you may try it for a week, and if it does not please you, and you are not satisfied it is the best, all things considered; I will thank you for your trouble and cheerfully take it away. But it seems as though I almost hear you say, "I cannot part with it, the Domestic Circle is not full without it." Terms liberal.
