THE CAMPTOWN MEETING HOUSE-To Our Friends in General.-As regards the was sad and sickening for the time, but after few days of consideration and careful investigation, the committee met in council with Mr. P. Cons. the contractor. All being possessed of a kindly spirit, and having a desire to de morally right in the matter, an amicable adjustment of the case was soon resched, and the building of the house to suffer no uncalled for 102. W. C. BOGART, Esq., for over delay, but be finished according to the first contract in 1872, and also to add in sustaining a part of his loss the sum of \$200 in labor, mo ney, etc. We hope and trust that our friend May CALTER, for several years organist in in general will favor our decision and also help

us with their contributions. Mr. Cons has thus far manifested a willingness to do all that is fair, and shall we do less? Your humble servant has devoted a large share of his time for several months past to asking for bein, and has not asked in vain. I have said that as long as I can make \$10 a day for the house, I would work at begging until paid for. And I felt that I would soon be relieved of my mission, as I could see within \$200 or theresbout of enough. The whole cost of the lot, foundation and house will be about \$3,300. It is a close time | Hive Store in Mercur's Block. for money, but we do want to dedicate without begging. Any who will help us in this our need, will please forward the amount to Rev. E. Burroughs, or Cyrus Avery. P. S. I have pledged on my own field of labor over \$2,400 of the amount needed to finish

the house. Camptown, July 8, 1872; FRIEND ALVORD: I took my

back track from Oskaloosa to Topeka, and by and order soon. Most of the stockholders way of the Atchison, Topeka and Santa Fe R. reased their stock to a sufficient ex- R. to this place. I spent one day at Topeka on my return. Visited the fair ground, and saw a the Bee Hive Store. arge collection of fast horses which are kept there by the fast men of the city. The ground is well laid out and fitted up with large and commodious buildings, trees planted and growing, and all painted and white-washed in good style. They have 40 acres inclosed with a good fence, with suitable buildings for holding the State and county fairs. I am told that they have fine displays of blooded stock, grain, fruit and farming implements.

We spent the day pleasantly, and at night-

for home. The next morning at 11 o'clock, we started for this place, distance 50 miles, on our road for home. Atchison is east of Topeka, and situated on the west bank of the Missonri river, on a high, rolling piece of ground. It is tive looking city, containing many costly stone Clothing Palace, Main street, next to buildings, and a live, busy population. It is First National Bank. The cased a call yesterday from Dr. M. the eastern terminus of the A. T. & L. R. R., and the home of Senator Poweror. We follow up the Grasshopper river, passing the town of Grasshopper Falls, which is a busy, active little town (called a city) just beginning to feel the benefits of railroad facilities. I saw a large number of new buildings going up, together with the finest waterfall for machinery in this part of the State. Coal abounds in close proximity to the town.

The country is sparsely settled between thi place and Topeka, at least along the railroad. The land is the same black, rich soil as in other parts of Kansas which we visited. Along the river is a helt of timber of good quality and quite extensive; also large quantities of good stone, which crops out along the streams, on blaffs and divides. Settlement is commencing rapidly along this road, and its future greatness as an agricultural section is patent to any one passing through on the railroad. Crops are looking well, particularly corn. They are planting fruit trees of all kinds rapidly. The grape is well adapted to the soil and climate of Kansas, and will at no distant future enter-

largely into the export and commercial trade On the way from Topeks to Atchison, we passed over large unfenced prairies, the only visible occupants being large herds of cattle roaming unmolested on either side of the rall-Temptuess: While emphatically a rep- road. We reached this city about 1 o'clock, r. diricultural Paper for this section | M., and remained here until 7 o'clock P. The pleasantest and cheap- ows, and on marsh or swamp ground. The contestants to deposit \$1,000 - that is, \$250 on each of the above named points. The successful party shall donate the amoun received from the others as follows; one-half to the Home for the Friendless in Poughkeepsie, and one-half to a benevolent institution to

That manufacturers, their agents, and purchasers not familiar with the Eureka Mowe and gives universal satisfaction wherever used. | may be assured that we mean business, I further offer a Waltham Gold Watch worth \$250 to any manufacturer of mowing machines who ill accept the above challenge, and if this challenge is not accepted before the coming haying, we respectfully request all persons to make no further statements as to what the what it can no to those who know from me and are willing others shall use and know. BAAC W. WHITE, President.

Poughkeepsie, Dutchess Co., N. Y., Peb. 14. g. d. Madden, General Agent Nichols, Tioga Co., N. Y.

IT WILL PAY THE FARMER TO BUY AND Use It .- "What?" Why, the Tompkins County Wheel Rake. "Prove it." 1st. To compare it with the "Good Old Rework better and easier over stores, stumps, the revolver.

THE BEST WHEEL RAKE.—There are | 3d. It is easier for the horse as well as for 4th. It leaves the hay in better condition for pitching. The Revolver packs or mats the hay together : the Wheel Ruke leaves the hay loose 5th. It will rake wilted or half cured clove hay-which needs to be nut into cock in that condition to cure. Long or lodged stubble presents no obstacle to the Wheel Bake. "You

6th. In flooded or dusty hay, the Wheel Bake 7th: It is far more conveniently and rapidly handled in the field; and, in consequence, will do more and better work. 8th. No use for the hand-rake in the meadow 9th. Any 12 years' old boy, who can drive a horse, or many persons too infirm, or otherwise incapacitated for ordinary field work, can in

most cases do the raking as well as a strong 10th. The Bevolver is almost worthless for pleaning grain fields, while the Wheel Rake will pay for itself in gleaning 30 acres of wheat and other grain in propertion. Grain of any kind costs the farmer too much to grow it, to Purse No. 7, 2:50 race...... afford to waste it.

11th. The Wheel Rake is much better to rake dried clover seed in straw; the Revolver will waste the seed. 12th. The Tompkins County Wheel Bake will indicate and outleast more Recoters than the purchase money paid for the former will buy of the inter, while the Whold Bake has all the lefter, while the Whold Bake has all the lefter. the latter; while the Wheel Rake has all the time been more efficient and useful in every WAY.

13th. The greater reliability and durability of the T. C. Wheel Bake, render it far safer for the farmer to depend upon it to do his raking, edy for these complaints that the present age than upon the wooden Revolver, which is so apt, trencherously, to break when there is a large amount of hay to secure, and every moment of time so precious. 14th. The greater portability of the Wheel

15th. The TOMPKINS COUNTY HAKE IS

THE BEST WHEEL BAKE. 16th. Because it is the best constructed and 17th. Because, it will rake a heavier windr and then bunch it. 18th. Because, it will rake heavier uncured grass or hay and do good work. 19th. Because, it is more easily operated and

JOSEPH POWELL Miscellaneous.

DOMESTIC SEWING MACHINE Was improved January, 1872, since which it bears all the latest improvements that invention has produced making it one of the greatest trimphs of art. Machinists are wenderfully delighted with its simplicity and power so great. All paris, strictly interchangeable. If any part breaks a new piece will fit exactly. Great range of work, finest muslin to coarse Beaver or Solo Leather. Cannot make it drop a stitch. Tension will not change in sewing-as in other machines. It is one of the most popular Machines where it is known ever placed before the public, it pleases everybody. All admire it whenever seem. People that have them are so delighted with them they are writing to friends to buy-this machine if any, for it will do anything that any will, and runs so easy and requires no trouble to learn to run it. The astonishing fact that since January, 1872, having received all the latest improvements, 4 months, the company have sold meanly 20,000 Machines, with so few agents and small tarritory canvassed, shows conclusively that it has no parallel and that our people are an intelligent people. I have been desirous for a few years to get the agency of a Sewing Machine that I could nell and recommend without exagerating the truth or deceiving any one, and my time has come. I have been confined indoors so long I foel like a caged bird that wants liberty. And now friends, all that want to bny a Sewing Machine, no matter if rour mind has been set more acree other her from the collection of the collection of the produced and the produced and
