We were pained on Saturday last to learn that our young friend, GEO. Pow-ELL, had met with a serious accident at L. & B. Junction, but in the evening we were informed that his symptoms were favorable. On Sunday, however, he declined rapidly, and expired at

3 o'clock. As near as we can learn the sad ac dent occurred as follows: Grouge was acting as night dispatcher, and was examining the brake on a flat-car which was to be sent out. The car was standing on a siding, and he supposed the switch was turned for the main track. While engaged in this work a coal train came down the track, and, as the switch was turned for the siding, the engine struck the car, throwing him backward upon the track. The concussion was so great that paralysis folowed, resulting in his death as above.

George was one of the brightest and most manir boys we ever knew. He seemed to understand by intuition what other boys of his age would require weeks to comprehend. His genial and affable manners made him a general favorite with all his acquaintances. As a railroad employe, he possessed the entire confidence of his superiors, and was placed in responsible positions. It will be no easy task to fill his place. While this entire community mourn his loss, his death falls with peculiar weight upon his invalid father and his sisters, who were justly proud of an only son and brother, who was as sunshine in their house holds.

His remains were followed to the grave from paid us a flying visit last week. He has just the residence of his brother-in-law, Dr. Kelly on Tuesday morning last. Rev. Wn. McGlath-ERY and Rev. O. L. Gipson conducted the ser-
