SENATOR POSEROY.

The committee, appointed to in restigate the charges of bribery pre ferred against Senator Powerson, made their report on Monday afternoon. The chairman, Senator FREE-LINGHUYSEN, reviewed the testimony in the case at some length. The document concludes as follows:

The committee, some of whom were absent on other duty from time to time as the evi-dence was being taken, did not receive the dence was being taken, did not receive the printe testimony until the morning of Saturday, the 1st inst, and have given the evidence such examination, as in the press of business they have been able, which has been by no means as therough as desirable.

The committee bearing in mind the whole transaction, the result of the plot to defeat Pomeroy—remembering that the burden of proof is on the party making the archastion, have come to the concludion that York has not sustained his charge by sufficient proof, contradicted as it is by the evidence of Puga and Pomeroy himself. The committee report here with the evidence taken, and also the briefs of the respective counsel.

The report is signed by Messrs. FREELINGHUYSEN, BUCKINGHAM and The following are the views of Mr.

"I cannot agree with the report of the majority of the committee. I think that the testin my proves a corrupt off r by Pomeroy to
Senstor Simpson, of the Kansas legislature, to
obtain the vote of the latter. I also believe
that the testimony convicts Pomerov of having
attempted to bribe Senator York of that legisture to vote for him. That Pomerov delivared attempted to bribe Senator fork of that legis-ture to vote for him. That Pomerov delivered money to York is not denied. The only material issue between them is for what purpose was the money given. York says it was a bribe for his vote. Pomerov says it was handed to Yor-t carry to one Page, whom Pomerov had promised to assist in starting a national bank.

Perceiving no good result from an clabor large my reasons for my convictions; but this is the last day of the ression and of Mr. 1 omerovs senatorial term, and before the report can be printed, much less considered, the session will be at an end.
