TOWANDA, BRADFORD COUNTY, PA., MAY 29, 1873.

Belected Boetry. THE LOVE OF GOD.

Oh, love of God!

Each trembling hope,

And the sweet light

Softly transfiguring. Things the least divine.

As some dark pool

Lies black and sulien

When from the East

Shines with a glory

So my dark soul,

Of its own sorrow,

Golden and giorious

Till on its night

apron she was fluting.

old place has got to go.

some plan to save it."

.Of reflected light:

BY MRS. RICHARD GENEROUGH.

Thou love so far transcending

Of thy fair presence lending,

'Neath the starless night;

The radiant dawn upgushes,

Deep locked within the prison

God's radiant morn upriseth.

Miscellaneous.

In that the Nook or Summit; with difficulty sentation, gave full force, dignity and blemen were probably prodd and

So late as 1574, there was an imatthree inter lorged in his office until admitted to the bar, and when at last he was ready to practice, Dame Fortune suddenly smiled upon him, and sent him a fortune from over the sea, or rather sent him over the sea to get it. This was several years before, and it was his first return after his travels. They were discussing this same fortune this morning and Allan was saying that, although he had need to love, and found how faint was sunjug that, although he had need to love, and found how faint he sought to support himself in idle-ness, as he breathed once more his native air, the old spirit of industry to compared the more of two miles was soon passed. We shortly arrived at the church, a small, rough looking building in the woods. We enter and take a seat. Had it not been in church, I should commence to practice, if the Judge would take him into partnership.

Before the Judge could reply, he is the first return and the had the practice, and succeedingly processed the congregated to the congregated that it never entered her head it that it never entered her head it that it never entered her head it that the prize would take him into partnership.

Then I will ask him to interest timeself in us, anough to get them, and are questing old Mr. Green to count the notes ask helds of where still stands the forest prime indeed solitude regions doubt the place is usually so look seem that the whole subject of the summer, when the price is usually so look seem that the whole subject of the summer, when the price committee on the summer, when the summer, when

egg. Lay a bag filled with salt in the vessell, and replenish when empty. Do not remove the butter long before it is needed. H. T. Darlington remarked that in the northern counties of Pennsylvania it is customary to pack butter in the early summer for sale in the fall with the best success. Captain Wynkoop said the object was to find out if butter could be packed to advantage in the months when the price is lowest, to be sold or used when it is worth more. If the system can beadopted, it may be of great advantage. Isaac Eyre thought the practice of putting a bag of salt on the top was good, as it did not affect the butter so much. Captain Wynkoop had sometimes made fifteen or twenty cents a pound by packing butter in June, when there was an over-sup-

> · [For the Reporter.] THE GAME OF FOOT-BALL.

· Ітнаса, N. Y., Мау 16, 1873. Messes. Editors: Mayhap your readers would enjoy an account of a game of Foot-Ball, as played by the students of an American College, and taking it for granted that they would, I will go through a game with

The two classes are placed opposite each other, or a delegation of men from each, with the ball in the centre between them. They then toss up for the first kick, and a man is chosen from the side winning the toss. who runs toward the ball, kicking it as he runs. And now the game is fairly begun, and after this first move all is confusion; and it is only once in a great while that a spectator gets sight of the balf either sailing in the air or rolling for a second out from the mass, as if seeking a place of rest. To enjoy the game, we will take an active part in it ourselves. Having the first kick, we start on a run to ward the opposing side, and watch our chance for another, meanwhile, pushing and crowding with the rest and briskly running back and across the field, eagerly watching and often getting a kick or a thrust with the

somewhere in the crowd, we know exhibitating thing it is. He kicks our mind is so bent on victory that

the physical condition of our body is At last the ball is sent rolling in an opposite direction, and with our newed vigor. Ten, twenty, thirty minutes pass, and still the sphere is leanding backward and forward, until at last it is caught near the goal, kick sends it high in the air, and it passes the goal amid the shorts, of the winning side, and the cheers of sen the ball through, is "hoisted," lowed by his side, into the College

MCST BUTTER EROM SHALLOW PANS. -I have been reaching reports of factory men for a considerable time, and have heard it asserted frequently that as much butter can be obtained from. a stated quantity of milk set deep as shallow, but I did not accept their evidence as conclusive. In the early one week, and 5 the next, and made a pound of butter from 17 to 18 pounds of milk with the shallow setting and from 19 to 20 pounds of milk from the deep setting. I did not, however, consider these trials a to the stable; clean the stables every conclusive test, so during the winter pounds 21 inches deep, and 62 pounds 5 inches deep, skimmed after accumulated take a day and draw to 36 hours, churned each lot seperate, and the result was, I got 3 pounds As the manure is drawn keep it well and 5 onness from the 21 inches settogether and not less than three feet ting, and 2 pounds and I ounce from deep; keep the top always flat or a the 5 inches setting, which would little concave, as in this way the make one pound in favor of shallow setting each day while I had that When manure is heaped conically or amount of milk. The milk was kept spread carelessly far around, and at the same altitude, setting side by side, so that each had the same usage its value then would only be about from the time it was drawn from the regulaited in depth according to This experiment I coneider as near
