These, will give one nundred and thirty-four R publican votes. We are aware that some of these are occasionally carried by the Democrats, but there are counties we have not included in the above, which are frequently carried, in whole or in part, by the Republican. One will, on the average, about balance the other. But in the above there is a very large Republican majority. It only admits sixty-six Democratic members in the House, which leaves a Republican majority of sixty-eight—a majority that is too large for the party's good The Democrats ought to have hinely members in the House, even were we to think of nothing else than the good of the Republican party. Our figures are based on the results in the seyeral counties of the election this year, and are as reliable as they can well be made. But after allowing for all reasonable variations, there sull'remains a clear Republican majority in the House. As the apportionment embolies is principle interest, and is favorable to the Republican party, we conclude there is no political reason why any Republican should vote acquiset it. should be enforced.
