THE MESSAGE.

We print to-day the annual message of President GRANT. The document is not long and we commend it. to the perusal of every reader.

THE VIRGINIUS APPATR

dred passengers, two hundred and fort. The money awarded to the United States by twenty-six of the number were lost. The cause of the disaster was a collision with an iron ship, on the 22d of Nov. Ten minutes after the accident the ill-fated steamer, with its freight of precious lives, went down. Many members of the recent Evangelical Alliance were among the lost.

THE SPEAKERSHIP.

It is gratifying to us, in common with the republicans of this county, to learn that Mr. MYER's prospects for the Speakership are very flattering. His ability and fitness for the position are admitted even by those who do not advocate his election. while many of the ablest and soundest republicans in the State are san-guine that he will succeed. The con-test from present appearances will be between Ml'CORMICK, of Allegheny, and Mr, MYER. While we would not in the least detract from the good qualities of the gentleman from Alle-thus marked are contained in the papers sub-gheny, we do insist the section of the State from which he hails is not enest republicans in the State are san-State from which he hails is not en-

Jurists to determine how far the doctrine of perpetual allegiance, derived from our former colonial relations with Great Britain, was ap-plicable to Americans. Congress then wisely swept these doubts away by enacting, that any declarstion, order or decision of any officer of this government, which denies, restricts, im-pairs or questions the right of arpatriation, as inconsistent with the fundamental principles of the government. But Congress did hot indi-cate in that statute, nor has it since done so, what acts are to be dwenied the work of ex-patriation. PRESIDENT'S MESSAGE. To the Senale and House of Representatives: To the Senale and House of Representatives: The year that has passed is not the submis-sion of my last message to Congress has, espe-cially during the latter part of it, been an evential one to the country. In the mids of great national prosperity, afinancial crisis has occurred that has brought low fortunes of gi-gantic proportions; political partizanship has almost ceased to exist, especially in the agricul-tural regions, and, finally, the capture, upon the high seas, of a vessel bearing our flag, has for a time-threatened the most serious conse-

patriation. For my own guidance in determining such question. I required, nuder the provisions of the constitution, the opinion m writing of the principal officer in each of the excentive denorments mon cortem guestions estimate the night seas, of a verse bearing our nag, has for a time threatened the most serious conse-quences, and has agitated the public mind from one end of the country to the other, but this, happily now, is in the course of satisfactory ad-justment, honorable to both nations concern-ed. The relations of the United States, how-ever with most of the other powers continue principal oncer in each of the executive departments, upon certain questions relating to this subject. The result satisfied me that further legislation has become necessary. I therefore commend the subject to the careful consideration of Congress; and I trankmit hero with copies of the several opinions of the principal officers of the several departments, consider with other momendance with ever ed. The relations of the other powers, continue over, with most of the other powers, continue to be friendly and cordial. With France, Ger-many, Russia, Italy, and the minor European powers, with Brazil and most of the South American Republics, and with Japan, nothing has occurred during the year to demand espe-cial notice.

chrildren born in a foreign country of Ameri-can parents residing more or less permanently abroad, and to make rules for determining such other kindred points as may seem best to Congress. In compliance with the request of Congress I transmitted to the American Minister at Madrid with instructions to present it to the Spanish government, the joint resolution ap-proved on the 3d of March last, tendering to the people of Spain, in the name and on be-half of the American pople, the congratula-tions of Congress upon the efforts to con-solidate in Spain the principles of universal liberty in a Republican form of government The existence of this new Republic was inau-ginated by striking the fetters from the slaves in Porto Rico. This beneficent measure was followed by the release of soveral thousand persons illegally held as slaves in Cuba. Next the Captin General of that colony was deprived of the power to set aside the orders of his superiors at Madrid, which had pertained to the office since 1825. The sequestered estates of American citizens, which had been the cause of long and frequent correspondence, were ordered to be restored to their owners. All these liberal steps were taken in the face of violent opposition, directed by the reactionary slaveholders of Harans, who are vainly striving to stay the march of the idea which has terminated slavery in Christendon, Cuba only excepted. Unhappily, however, this baneful influence has thus far succeeded in defeating the efforts of all liberal-minded men in Spain to abolia slavery in Cuba and in preventing the promised reforms in that island. The struggle for political suprement, while it maintains a political connection with the Republic in the pennsula; and although usurping and defying the athority of the home government, where-ever such usurpation or defence tends in the pennesula; and although usurping and defying the athority of the home government, where-ever such usurpation or defence tends in the direction of oppression or of the maintainence of subue,

THE VIRGINIUS APFATR THE VIRGINIUS APFATR Seems now to be definitely settled - the Spanish government having acceded to all our demands in the premises. CONGRESS. Both branches of the national leg-islature met and organized on Mon-day last. Mr. BLAINE was re-elected Speaker of the House and Mr. Mc PHENSON Clerk. 5 The democrats voted for FERNANDO Wood, one of the worst salary-grab-bers; but the republican cancus adopted resolutions demanding the repeal of the back-pay law. Bills were introduced in the Senate and House, by republicans, for the repeal of the law. TERRIBLE DISASTER AT SEA. News has been received of a terri-ble disaster to the steamship Ville du Havre, which left New. York on the 15th ult. with over three hun-dred passengers, two hundred and twenty-six of the number vere loat.

the tribunsl of arbitration at Geneva was paid by Her Majesty's government a few days in ad-

the tribunal of arbitration at Genera was paid by Her Majesty's government a few days in ad-vance of the time when it would have become payable according to the terms of the treaty. In compliance with the provisions of the act of March 3, 1873, it was at once paid into the Treasury and used to redeem so far as it might the public debt of the United States, and the amount so redeemed was invested in a fire per cent, registered bond of the United States for fifteen million five hundred thousand dollars, which is now held by the Secretary of State subject to the future disposition of Congress. I renew my fecommedation, made at the open-ing of the last session of Congress, that a com-mission be created for the purpose of audiung and determining the amounts of the several di-rect loses growing out of the destruction of vessels and their cargoes by the Alabama, the Florida or the Shenandoah, after leaving Mel-bourne, which the sufferers have received, be-ing equivalent or compensatory, of ascertaining the names of persong-outfield to receive com-pensation for the same, making the computa-tions on the basis indicated by the privation at Genera, and the pays and the payment of such person at Genera, and the payment of such lowses he authorized to a payment of such lowses heavy lows and heavy and the payment of such lowses heavy lows and the payment of such lowses heavy lows and heavy and the payment of such lowses heavy lows and heavy and the payment of such lowses heavy l nized by the government, and thus' an eleme nore dangerous to continued volonial relations between Cubs and Spain, than that which inspired the insurrection of Yars. An element opposed to granting any relief from misrule and abuse, with no aspiration after freedom, commanding sympathics in gen-erous breasts, aiming to rivet still stronger the shack as of ale way and onversion. arbitration at Geneva, and the payment of such losses be authorized to an extent not to exceed losses be authorized to an extent not to exceed the awards of the tribunal at Genera. By an act approved on the 14th day of Febru-ary last, Congress made provision for complet-ing, jointly with an officer por commissioner to be named by her Britannio Majesty, the deter-

tained until our exports, exclusive of gold, pay for our imports, interest due abroed and other specie obligations, or so nearly so as to leave an apprecia-ble accumulation of the precious install in the coun-ity. From the products of our mires, the develop-ment of the mines of precious installs during the past year and the prospective development of themines of the mines of precious installs during the past year and the prospective development of themines as years and the prospective development of themines prote pyriment would be assured and help to in-crease our exports. Sufficient currency is required to keep all the industries of the country employed. Without this, national as well as individual bank-ruptcy must ensue. Undue infation, on the other hand, while it might give temporary relief, would only lead to infation of prices, the impossibility of competing in our own markets for the products of home shill and liabor, and repeated renewals of the prevent experience. Elasticity to our circulating medium, therefore, and just shoring the its of the isquinative singleyed, is what is most desired. The effect measure of the country and to keep all industries amployed, is what is most desired. The effect measure would orset, the industries devided in a exchange the would orset. That obtained, we shall have a currency of an exact degree of elas-ticity. If there be too much of it for the legitimation the country if too little, the reverse will result. To hold what we have and to appreciate our curren-cy to that standard, is a problem deserving of the most serience on the precisity of complex. The atterform of the precisity of complex.

consideration of Congress; and I transmit here with copies of the several opinions of the principal officers of the steecative departments, isogether with other correspondence and prom-ment information on the same subject. If the the stand of the the several of the stand of the the several of the process of trade and commerce, it will dow out of the process of trade and commerce, it will dow out of the process of trade and commerce, it will dow out of the process of trade and commerce, it will dow out of the dual doctrine of perpetual allegiance, stream only the last to indicate how their form citizens may elect another nationality. The process regression and prom-provers automited herewith indicate what is necessary to place us on such with the regulation of this interfational question. We have afread in our tradies assented to the principles where said every one holding it has been antious to dis-tizens and may voluntarily render allegiance to other powers. We have agreed that a presi-dence in a foreign land, without intent to and how expatriation can be accomplished, to regulab by law the condition of American would here informed points as may seem heat to and how expatriation can be accomplished, to regulab by law the condition of American women marrying forigners, to fix the status of in compliance with the request of Congress. I ransmitted to the American Minister at the pople of Spain, in the name and on be haid of the Spain the principles of congress. I transmitted to the American Minister at the pople of Spain, in the name and on be haid of the Spain the principles is of determing the pople of Spain, in the name and on be haid of the American people, the congratula-tions of Congress upon the efferts to con-solidate in Spain the principles of universation in compliance with the request of Congress-i transmitted to the American Minister at the pople of Spain, in the name and on be haid of the American people, the congratula-tions of Congress upon the efferts to con-solidate in Spain the principl by requiring them to hold their reserves in their own vaults, and by forcing them into resumption hough it would be in only light tender For this purpose I would suggest the catable

of clearing houses for your con To secure the forms rule
