The men, who institute this church little thought that it would become the power it now is. The preliminary organization of the church took place in the house of Issue Long, in Mahemin township, Lancaster county, about five miles north of the city of Lancaster, about the time of the Revolutionary war. Buelington Boro', Jan. 28, '74. The undersigned will be prepared to receive at Wysauking, Pa., good fat yeal calves and lambs, between the hours of 2 and 6 o'clock, p m., on Friday, April 3d, on State and and south Fridays of July and August next. On the third of April the price for good yeal calves, weighing from 130 to 260 lbs, wil be 5½ cents rer lb. For those weighing from 100 to 130, from 4 to 5 cents per lb laccerding to weight and condition. After that date the highest market prices will be paid for both calves and lambs, being governed by general markets, A calf to fatten well—should never be allowed to run in the field or yard, but should in all cases be closel, confined in a clean dry stable, where it will not have sufficient room to run, and the cow should be driven into the stable regularly two or three times each day, and the calful allowed to suck all it desires, until it arrives to the age of from 5 to 8 weeks, when it will usually be suitable for veal, and it brought here will not be bought except at low prices. Farmers that have carly winter lambs to dispose of, will find it greatiff to their advantage to sell them here by weight, during the months of May and June, when they are always in deniand at high prices. Persons can at any time ascentain what prices will be paid for the next succeeding week, by enquiring of me at the Brick Store, where I am always found, and everready to buy, at highest market prices, grain, hay, butter, eggs, pork, poultry, &c., and to sell goods as cheap as the cheapest.
