A Valuable Recipe.  The Journal of Chemistry publishes a recipe for the destruction of insects which, if it be one-half as efficacious as it is claimed to be, will prove invaluable:  Hot alum-water is a recent suggestion as an insecticide. It will destroy red and black ants, cockroaches, spiders, chinch bugs, and all the crawling pests which infest our houses. Take two pounds of alum and dissolve in three or four quarts of boiling water; let it stand on the fire till the alum dissappears; then apply it with a brush, while nearly boiling, hot, to evera joint and crevice	HATS,		WAGONEI WAGONE!
